**4. Adoption of Agenda**

Agenda adopted as drafted.

**5. Adoption of Draft Meeting Minutes**

March 10, 2000 - adopted as modified (including modifications to the attachments) - see GISB home page for final version

**6. Continue Update of Nominations Related Standards Using 873**

Begin with the Scheduled Quantity where there were a couple of code values we needed to determine at the sub-detail level.

see workpaper NOMSwork.doc.

We determined that we needed new code values for some of the Nominations Related datasets that we have not yet implemented.

We will request the following code values on a new DMR and hope that they get approved in time for us to publish the values with the Nominations Related Standards ANSI compliant documents.

New code values needed for QTY (QTY01 673):

G8 - Distributed Confirmed Receipt Quantity

G9 - Distributed Confirmed Delivery Quantity

see workpaper x12dmr14.doc

In looking at all the pending requests for the next GISB version, we saw that R98044 has a new data element and there is no place to map this in the Detail level. Therefore, we will need to request the addition of an MEA segment to the Table 2 detail level of the 873.

see workpaper x12dmr15.doc

We also need one more code for the LQ segment to represent another quantity in the Scheduled Quantity for Operator:

New code value needed for LQ (LQ01 1270):

LSS - Scheduling Status

see workpaper x12dmr13.doc

After going through all the Nominations Related Standards, we began work on the X12 mapping for the Nomination.

For the Data Element Cross Reference, we decided to group the segments that are in the same N1 loop together (like we have done in some of the Capacity Release transactions) rather than group the same segments together. This will better distinguish the actual mapping.

Below is the draft layout. We will create instructions for this to go into the change log.

**Heading:**

Segment	Usage				Segment Name/GISB Data Element Name
	P	N	T	U	
ST	M	M	M	M	Transaction Set Header
BGN	M	M	M	M	Beginning Segment
DTM	M	M	M	M	Time Stamp
