The communication of this information is mandated by the Federal Energy Regulatory Commission, a government agency, and cannot currently be accommodated in the LQ segment of the 873 transaction set. The code list for the requested code value is maintained by the Gas Industry Standards Board.

The Supplemental Reduction Reason code value describes a reduction reason that may be used in addition to the primary Reduction Reason. Unlike the Reduction Reason, which is mandatory, the Supplemental Reduction Reason allows the sender to supply more than one reason as to why a quantity was reduced.
