Subject: Issue Regarding Communication of 3PAD Information

During EDD's development of the revisions necessary for the implementation of the Title Transfer Tracking standards, EDD reviewed the following GISB standards:

Standard No. 1.3.73

Where a Transportation Service Provider (TSP) has decided to offer Title Transfer Tracking (TTT) service by means of an arrangement (including an agreement) with a party which will act as the TSP's designated party, and regardless of communication methodology between Account Holders and such designated party, the TSP should, upon request, identify the Title Transfer Tracking Service Provider(s) (TTTSPs) at a location which have established active TTT arrangements with the TSP. The relevant information to be provided should include the name of each TTTSP, the ID code for each TTTSP used by the TSP, the contract number for each TTTSP assigned by the TSP (where applicable), the location code(s) for each TTTSP assigned by the TSP (where applicable), and the location code(s) nominatable to the TSP for transportation service to or from the location associated with each TTTSP. If, in the future, the common code for locations central repository includes listing of TTTSPs by location, the requirements of this standard may be met.

Standard No. 1.2.17

A Third Party Account Administrator is a Title Transfer Tracking Service Provider other than the Transportation Service Provider.

EDD raised the following issues:

- After discussion, EDD determined that the communication of the list of Third Party Account Administrators (3PADs) is inappropriate for EDI/FF development due to the infrequency of use and small number of data elements.
- EDD requests BPS to review GISB Standard No. 1.3.73 for implementation of the communication of 3PAD information. EDD discussions noted that implementation via Informational Postings may be appropriate.
