Process Gas Consumers Group
Reliant Energy Services
Dominion E&P

II. G. Creditworthiness Timelines, excluding Construction:

z21. Upon request of the Transportation Service Provider (TSP), the Service Requester (SR) should furnish the applicable information requested in NAESB WGQ standards [z1] and [z9] within three (3) business days along with an explanation for the unavailability of any applicable information. All information should be provided no later than fifteen business days from the date of the TSP's request.

z22. Within five (5) Business Days from the date the Service Requester (SR) receives Transportation Service Provider's (TSP) written request for credit alternatives pursuant to NAESB WGQ Standard [z11], the Service Requester (SR) should pay the TSP for one month of service charges in advance. The SR should have thirty (30) days to provide the form of a credit alternative pursuant to NAESB WGQ standard [z11], to continue service.

z23. A Transportation Service Provider (TSP) should provide a written response to Service Requester's (SR) credit re-evaluation request made pursuant to NAESB WGQ standard [z15] within five (5) Business Days. A TSP's creditworthiness re-evaluation determination should not exceed 20 Business Days from the date of TSP's receipt of a SR's re-evaluation request pursuant to NAESB WGQ standard [z14] and [z15].

z24. The Transportation Service Provider (TSP) should provide thirty (30) days written notice to the Service Requester (SR), any releasing shipper, any replacement shipper, and the Federal Energy Regulatory Commission (or equivalent) that TSP will terminate or suspend service to the SR, if the SR fails to pay in advance the undisputed outstanding balance pursuant to NAESB WGQ Standard [z22] or provide the required credit assurance pursuant to NAESB WGQ Standard [z11].
