RE: Intra-day Time Line Proposal  
DATE: April 21, 1997

It now appears that I will be unable to attend your meeting on April 24, 1997. However, I would like to submit a proposal for consideration by the group. As you can see from the proposal it represents substantial movement off of my original proposal and can be considered my bottom line position. Considerable thought and discussion went into this proposal and I hope the group will give it serious attention.

GISB Intra-day Nominations: Proposal assumes that we would have, at a minimum, the right to one late day nomination in addition to one intra-day (same day) nomination.

LATE NOMINATIONS: Change made today, after timely nomination deadline, for flow at the start of tomorrow's gas day.

Deadline for submission to pipeline: by 5 PM CT (day before gas flow).  
Notification by pipeline: by 7 AM CT (day of gas flow).  
Gas Flows: 9 AM CT (start of gas day).

INTRA-DAY NOMINATIONS: Change made after the start of the gas day for flow on the same day. Decision as to whether the change is pro rated is determined by the pipeline and the shipper and is point specific.

Shippers would have two opportunities to make one intra-day change:

First Deadline for submission to pipeline: 9 AM CT  
Notification by pipeline: by 11 AM CT  
Change Effective: 1 PM CT

Second Deadline for submission to pipeline: 7 PM CT  
Notification by pipeline: by 9 PM  
Change Effective: 11 PM CT

I will be in my office on Thursday and can be reached at 714- 403- 2987. I appreciate your help in this matter.
