

07/03/97

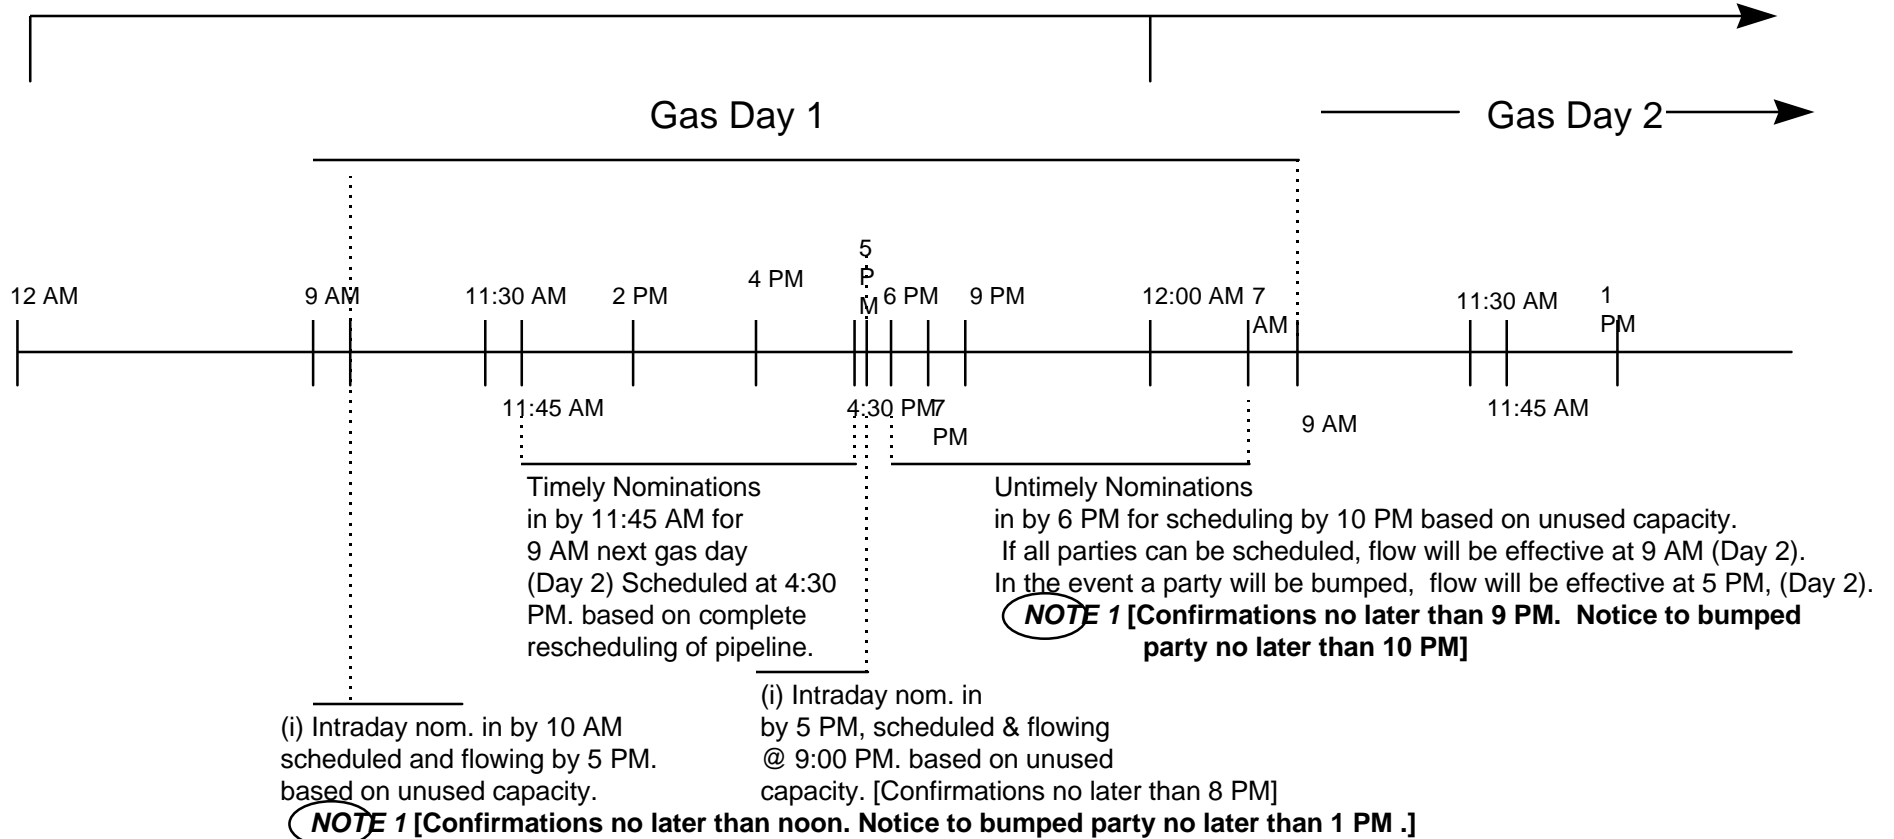

Proposed Compromise Model

(as Modified 7/8/97)

Intraday Nomination Task Force

Calendar Day 1

Calendar Day 2

The above nomination opportunities represent times which a shipper can expect to be supported by TSP's and all confirming parties for synchronization across the N. American pipeline network (GRID). "Unused" capacity means additional pipeline capacity available for scheduling as determined by the TSP. The above nomination times mean the request is "in" the TSP's designated site by the time shown and "scheduled" means the response from the TSP is in the Shipper's designated site.

NOTE 1: If a TSP allows bumping on its system, it should choose to allow bumping for at least one of these two nomination opportunities.
