

Comments on Recommendation to NAESB WGQ Executive Committee
Request No. : R02002 - Order 587-N

In order to help further clarify the actual timing requirements as to the day for recall notifications, Dynergy suggests the following redline edits to the recall notification periods in Proposed Standard 5.3.z1. This not only clarifies the actual intent of the standard, but it is also consistent with the proposed deleted Standard 5.3.6 that it replaces in which both the time and the “nomination day” are identified as part of the standard.
