

NEW DEFINITIONS

- D1 "Title", if not otherwise addressed in the transporter's contract or tariff, is the term used to identify the ownership of gas.
- D2 Title Transfer is the change of title to gas between parties at a location.
- D3 Title Transfer Tracking is the process of accounting for the progression of title changes from party to party that does not effect a physical transfer of the gas.
- D4 A Title Transfer Tracking Service Provider is a party conducting the title transfer tracking activity.
- D5 A Third Party Account Administrator is a Title Transfer Tracking Service Provider other than the Transportation Service Provider.
- D6 An Account Holder is the party using the services of a Title Transfer Tracking Service Provider (TTTSP) under a contract or other arrangement with that TTTSP.
- D7 A title transfer Nomination is a nomination line item requesting the service of Title Transfer Tracking and is sent by an Account Holder to a Title Transfer Tracking Service Provider.

NEW PRINCIPLES

- P1 [Previously part of S6]
All Title Transfer Tracking Service Providers should offer their Title Transfer Tracking services without undue discrimination.
- P2 [Previously S10]
Title transfers into and/or out of a Title Transfer Tracking Service Provider should be able to occur regardless of the service class of any related transportation.

NEW STANDARDS

- S1 The Transportation Service Providers (TSP) should be responsible for accommodating Title Transfer Tracking services at all points identified by the TSP as pooling points, where title transfer tracking services are requested.
- S2 The Title Transfer Tracking services should be supported by means of the nominations, quick responses and scheduled quantities processes. At the Transportation Service Provider's election, the confirmation process may also be utilized with Title Transfer Tracking Service Providers within the TSP's system.
- S3 deleted and combined with S4
- S4 All Third Party Account Administrators (3PADS) wishing to provide title transfer tracking services shall so notify the Transportation Service Provider (TSP). All coordination between 3PADS and a TSP should be performed under a contract between the parties. Where the TSP is a Title Transfer Tracking Service Provider on its system, tariff provisions (terms, conditions and rates) or general terms and conditions of the TSP, may take the place of a contract.

- S5 Upon reasonable request of the Third Party Account Administrator (3PAD), Transportation Service Providers should provide the 3PAD with one of the following for conducting title transfer tracking (TTT) activity:
- 1) location code(s);
 - 2) contract identifier(s) used in the exchange of transactional data; or
 - 3) both one and two above.
- In any event TTT activity is always performed at or with respect to a location (physical or logical).
- S6 All Title Transfer Tracking services should be performed under a contract or other arrangement between the Account Holder and their Title Transfer Tracking Service Provider.
- S7 A Transportation Service Provider (TSP) should communicate with any Title Transfer Tracking Service Provider (TTTSP) that performs according to the applicable contract between the TTTSP and the TSP, and that operates in accordance with those GISB standards applicable to Title Transfer Tracking.
- S8 Title Transfer Tracking should be conducted using existing applicable data sets.
- S9 A Transportation Service Provider (TSP) may operate in a manner such that allocated quantities will equal scheduled quantities for gas quantities into and out of a Title Transfer Tracking Service Provider (TTTSP) from or to a pool(s). If a TSP operates in such a manner, then the TSP should not be required to accept Pre-determined Allocations (PDAs) for those transactions nor separately provide, or transmit, Allocations to parties to such transactions.
- Where the allocated quantities with respect to a TTTSP are different than the scheduled quantities provided by the TSP to the TTTSP, for the same period, then the TSP should provide to the TTTSP Allocations (GISB Standard No. 2.4.3) for the quantities into the TTTSP. In addition, the TSP should either accept:
- (a) Allocations from the TTTSP, or,
 - (b) PDAs from the TTTSP.
- Such information should be delineated at the level of the nomination line items provided by the TTTSP to the TSP for the purpose of allocating quantities out of the TTTSP.
