During the October 23, 2001 GISB Executive Committee meeting and, subsequently, the Sept. 12 EDM Subcommittee meeting, revisions were made to the 'GISB Response' section of some of the items in the Sandia Labs Report. The recommendation that was posted for the Dec. EC meeting includes revisions to standards and to the text of the EDM standards manual, but does not include revisions to these sections of the response documents. The affected items are 7.2.3, 7.2.4, 7.2.7, 7.4.1, 7.4.2, 7.4.4 and 7.4.7. When and how will these revisions be made? Per the minutes of the September 12, 2001 EDM Subcommittee meeting, an updated Sandia response will be presented to the EC. Is this document forthcoming for the December EC meeting?
