### GAS INDUSTRY STANDARDS BOARD

#### TRIAGE COMMITTEE REPORT

**Wednesday, December 13, 2000 - 11:30 a.m.**

#### 1. Administrative

Mr. Lander opened the meeting at 11:35 a.m. and read the antitrust statement. Ms. McQuade read the roll call. Mr. Lander conducted the meeting.

#### 2. Triage of Requests

**R00027:** Request:

Submitted by Enron Transportation Services Group to add a Status data element to the header level of the Offer Download (5.4.1), Bid Download (5.4.2) and the Award Download (5.4.3), to accommodate sending the status of offers, bids and awards (see GISB Interpretation 7.3.43).

Triage Recommendation:

Send the request to the Business Practices Subcommittee (BPS) to be addressed in its normal course of business.

Discussion:

Because this request adds a data element, the request should be forwarded to the BPS. Because it is unlikely that it would be presented in version 1.5 of the standards manuals, it should be handled during the normal course of business.

#### 3. Adjourn

The conference call adjourned at 11:45 a.m.
