Subject: PC Action On GEITF Recommendations

This email was sent to the geitf List Serve

---

The NERC Planning Committee was pleased with the work of the GEITF, and approved the task force's recommendations at their meeting yesterday in Nashville. The recommendations will now go to the NERC Board for review and hopefully, approval, in June. In the mean time, we must complete the Phase I report, and flesh out what we did, what we learned, and what the thought process is behind our recommendations. We should also provide some guidance on how we expect the recommendations to be implemented (SAR, committee or subcommittee action, etc.). Several people have all ready volunteered to assist in the effort to complete the report, so I will get with Ken Wiley and the volunteers to discuss how to go forward upon my return to Princeton next week. Our report must be sent electronically to the PC prior to the Board meeting for review and comment, so time is important.

Congratulations, and thank you for your efforts. However, the job isn't complete until the paperwork is finished, and the BOT acts.
