

1.3.1 Standard time for the gas day should be 9 a.m. to 9 a.m. (Central Clock Time)

1.3.2 The standard nominations timeline should be as follows: 11:30 a.m. for nominations leaving control of the nominating party; 11:45 a.m. for receipt of nominations by the transporter; noon for quick response; 3:30 p.m. for receipt of completed confirmations by transporter from upstream and downstream connected parties; 4:30 p.m. for receipt of scheduled quantities by shipper and point operator (Central Clock Time on the day prior to flow).

5.3.2 For short-term releases (less than 5 months):

- Offers should be tendered by 1 p.m. on the day before nominations for short-term releases (less than 5 months);
- open season ends no later than 2 p.m. on the day before nominations are due (evaluation period begins at 2 p.m. during which contingency is eliminated, determination of best bid is made, and ties are broken);
- evaluation period ends at 3 p.m.;
- match or award is communicated by 3 p.m.;
- match response by 4 p.m.;
- award posting by 5 p.m.
- posting of prearranged deals not subject to bid by 9 a.m. the day of nominations;
- contract tendered with contract # by 10 a.m.; contract executed; nomination possible for next day gas flow (Central Clock Time).

For longer term releases (5 months or more):

- Offers should be tendered by 1 p.m. four business days before award for long-term releases;
- open season ends no later than 2 p.m. on the day before nominations are due (open season is 3 business days);
- evaluation period begins at 2 p.m. during which contingency is eliminated, determination of best bid is made, and ties are broken;
- evaluation period ends at 3 p.m.;
- match or award is communicated by 3 p.m.;
- match response by 4 p.m.;
- award posting by 5 p.m.;
- positing of prearranged deals not subject to bid by 9 a.m. the day of nominations;
- contract tendered with contract # by 10 a.m.; contract executed; nomination possible for next day gas flow (Central Clock Time).

5.3.6 If the releasing shipper wishes to recall capacity to be effective for a gas day, the notice should be provided to the transportation service provider and the acquiring shipper no later than 8 a.m. Central Clock Time on nomination day.

Intra-day Nominations Subcommittee  
Recommendations From BPS to  
GISB Executive Committee  
September 12 and 13, 1996

73. There are two types of intra-day nominations: (i) A nomination received during gas day for the same day of gas flow, and (ii) A nomination received after the nominations deadline for the following gas day. Standard 1.2.7 (Version 1.1 adopted by FERC)

74. For type i intra-day nominations, a nomination received during gas day for the same day of gas flow: with the assumption of 11:30 am as the standard nomination deadline for the next gas day, and 9:00 am as the start of the gas day: intra-day nominations due for the same gas day no later than 2:00 pm, scheduled quantities by 6:00 pm, and flow starts twelve hours after the start of the gas day.

75. For type ii nominations, a nomination received after the nominations deadline for the following gas day: Intra-day nominations for the next gas day are submitted after the nomination deadline and prior to the 8:00 am Central Clock Time of the next calendar day. Scheduled quantities will be communicated to the service requester and gas will flow noon Central Clock Time.

76. No standard should be supported on the following: Transportation service providers should offer both an intra-day and non-intra-day nomination service for each class of service that they provide.

77. Pipelines could limit intra-day nominations to receipt and delivery points with electronic flow monitoring.

78. No standard is required for the number of intra-day nominations per day that a pipeline should allow, other than for the standards already determined. Alternatives to 78 led to Standard 1.3.32 (Version 1.1 not adopted by FERC)

79. Intra-day nominations may be used to nominate new supply or market. Standard 1.3.33 (Version 1.1 adopted by FERC)
