Work Paper Submitted by Enron Administrative Service Corp. recommending a minimum "Common Look and Feel" presentation for the Informational Postings, Operationally Available Capacity and Unsubscribed Capacity.

The column headings for the "Operationally Available Capacity" document and "Unsubscribed Capacity" document should be displayed as follows:

TSP
Posting Date/Time
Capacity Type (field)
Available Capacity Effective Date/Time
Available Capacity End Date/Time
Location/Quantity Type Indicator
Point Common Code
Point Description and or Segment/Zone Name
Total Capacity
Available Quantity
IT Indicator

*Measurement Basis should be shown in the heading as dekatherm, gigacalorie, GJ or MCF. The population of data in these columns should be consistent with the corresponding data element usage in Standard 5.4.13.
