

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
NGPL	10	Develop EDI Data Sets to allow appropriate parties to request a listing of customer/agent relationships recognized by the TSP, and receive a list of customer/agent relationships recognized by the TSP.	Agency			New	Y	N
WGP	162	Report of customer's agent / principal relationships	Agency		NGPL 10	New	Y	N
PGE	4	Develop EDI Data Sets to permit TSP customers to assign business agents to execute business transactions with the TSP on their behalf, which may include (1) Upload of Request to assign/modify business agent, and (2) Response to request to assign/modify business agents.	Agency			New	N	Y
WGP	110	Agent Maintenance – Inbound: Process to allow a customer to update their agent security settings	Agency		PGE 4	New	N	Y
WGP	29	Agent Forms to be completed by customers requesting transfer of specified administrative responsibilities to a designated party.	Agency			New	N	Y
WGP	168	Create an agency delegation agreement	Agency		WGP 29	New	N	Y
WGP	192	Contracts/Capacity Release Area: Request Agency Relationships Agreement	Agency		WGP 29	New	N	Y
PGE	6	Develop EDI Data Sets to permit TSP customers to inform the TSP that there has been a legal name change and to officially change the names on all contracts between the customer and the TSP, which may include (1) Upload of Notification of shipper name change, (2) Response to upload of shipper name change, (3) Final resolution of shipper name change. Such data sets will allow the TSP customer to specify the exact nature of the agency relationship.	Business Associates			New	N	Y
TGP	45	Develop EDI Data Sets for Address Change Information - a data set to electronically request a change to a business parties address. It will be used when a service requestor wants to provide the service provider information on changes of address.	Business Associates			New	N	Y
TGP	46	Develop EDI Data Sets for Confirmation of a Address Change - a data set to electronically confirm the request for a change to a business parties address. Will be used when	Business Associates			New	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		a service requestor wants to provide the service provider information on a changes of address.						
DUKE	2	Develop EDI Data Sets for Business Associate Download and its corresponding request transaction set, Request for Business Associate Download. The purpose of these transaction sets is for trading partners to be able to request and to receive a list of available proprietary business associate code values and their corresponding Industry entity common code values	Business Associates			New	Y	N
ENRON	32	Develop EDI Data Sets for Open Season Package List. When requested by the bidder, the transportation service provider uses this data set to provide information on transportation service provider available capacity.	Capacity Offerings			New	Y	Y
CGT	14	Modify the Offer Download data set to include data elements required when capacity is auctioned by the pipeline.	Capacity Offerings		ENRON 32	New	Y	Y
ENRON	33	Develop EDI Data Sets for Bid Detail. During offers of transportation service provider available capacity, bidders use this data set to submit bids to the transportation service provider.	Capacity Offerings			New	N	Y
GLAKES	3	Develop EDI Data Sets for bidding on pipeline's available capacity	Capacity Offerings		ENRON 33	New	N	Y
QUESTAR	1	Develop EDI Data Sets to submit and update bids for unsubscribed firm storage and transportation capacity and response data sets to show all bids received.	Capacity Offerings		ENRON 33	New	N	Y
CGT	15	Submit Bid for Capacity being Auctioned or Open for Bidding. A business practice standard to submit a bid on a "open for bidding" temporary or permanent capacity release offer and for capacity being auctioned by the pipelines	Capacity Offerings		ENRON 33	New	N	Y
ENRON	34	Develop EDI Data Sets for Bids List. When requested by the bidder, the transportation service provider uses this data set to provide information on bids submitted on the transportation service provider offer of available capacity.	Capacity Offerings			New	Y	Y
WGP	56	Firm Capacity Bids (Informational Postings) – Outbound: Reports about bids recently submitted on Texas Gas Firm	Capacity Offerings		ENRON 34	New	Y	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		Capacity						
WGP	93	Firm Capacity Bids (Informational Postings) Request – Inbound: Request for reports about bids recently submitted on Texas Gas Firm Capacity	Capacity Offerings		ENRON 34	New	Y	Y
CGT	16	Submit Bid for Capacity being Auctioned or Open for Bidding Quick Response. A business practice standard to send to the SR a quick response acknowledging receipt of a Submit Bid for Capacity being Auctioned or Open for Bidding data set. Receipt does not constitute acceptance of the bid but simply acknowledges the bid has been received	Capacity Offerings			New	N	Y
ENRON	35	Develop EDI Data Sets for Withdraw Bid. During offers of transportation service provider available capacity, bidders use this data set to submit withdrawal of bids with the transportation service provider.	Capacity Offerings			New	N	Y
WGP	55	Firm Capacity Awarded (Informational Postings) – Outbound: Reports about any firm capacity from WGP – Texas Gas that has been recently awarded	Capacity Offerings			New	Y	Y
WGP	92	Firm Capacity Awarded (Informational Postings) Request – Inbound: Request for reports about any firm capacity from WGP – Texas Gas that has been recently awarded	Capacity Offerings			New	Y	Y
DUKE	31	Develop EDI Data Sets for Transmission Corporation and Trunkline Gas Company) request the creation of an EDI transaction set titled Approved Bidders List Download and its corresponding request transaction set, Request for Approved Bidders List Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive a list of the current approved capacity release bidders available on the transportation service provider.	Capacity Release	Approved Bidder List		New	Y	N
WGP	5	Approved Bidder List provides credit-worthy customers listing for use as capacity release parties.	Capacity Release	Approved Bidder List	DUKE 31	New	Y	N
WGP	65	Preapproved Bidders (Informational Postings) – Outbound: Reports on companies on WGP – Texas Gas' preapproved bidder's list for the capacity release program. Posted by Customer Service Dept. as changes occur	Capacity Release	Approved Bidder List	DUKE 31	New	Y	N
WGP	102	Preapproved Bidders (Informational Postings) Request –	Capacity Release	Approved	DUKE 31	New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		Inbound: Request for reports on companies on WGP – Texas Gas' preapproved bidder's list for the capacity release program. Posted by Customer Service Dept. as changes occur		Bidder List				
WGP	199	EBB Area: Capacity Release Pre-approved Bidder Lists	Capacity Release	Approved Bidder List	DUKE 31	New	Y	N
DUKE	25	Add data elements to EDI Data Sets for Firm Transportation & Storage - Award Notice (5.4.3) . The addition of these data elements to the EDI transaction set is required so that users of the Duke Energy pipelines' Internet Web site will have access to the same information as users of EDI transactions.	Capacity Release	Award		Modify	N	Y
ENRON	4	Modify firm transportation and storage bid review for 1-Part/2-Part Rate Evaluation Conditions, Contingent Bids After Open Season Indicator, Contingent Bidder Next Highest Bidder Obligation Indicator, Additional Rate-Alternate Location Indicator, Service Quantity, Permanent Release Bidder Company Requested Contract Number, Release Rights to Change Points Indicator	Capacity Release	Award		Modify	N	Y
ENRON	5	Modify firm transportation and storage award notice for Additional Rate-Alternate Location Indicator, Service Quantity, Release Rights to Change Points Indicator	Capacity Release	Award		Modify	N	Y
DUKE	36	Develop EDI Data Sets for Award Summary Download and its corresponding request transaction set, Request for Award Summary Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive information for (1) a specified releaser company, (2) a specified gas transaction zone or (3) all awards for the specified date range.	Capacity Release	Award		New	Y	N
DUKE	37	Develop EDI Data Sets for Award Detail Download and its corresponding request transaction set, Request for Award Detail Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive detailed information on (1) a specified award or (2) awards for a specified date range. The detailed information can be requested with or without (1) bid information, (2) path information or (3) special terms and miscellaneous notes.	Capacity Release	Award		New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
WGP	115	Final Disposition of Non-Prearranged Offer– Outbound: Final Disposition of non-prearranged offer sent to releasing party and bidding party (if any).	Capacity Release	Award		New	N	Y
WGP	189	Contracts/Capacity Release Area: Need a Final Disposition Dataset for Biddable Non-prearranged Deals	Capacity Release	Award	WGP 115	New	N	Y
WGP	116	Capacity Release – Data set to execute capacity release contracts by replacement shipper. Data set for confirmation of execution of contract	Capacity Release	Award		New	N	Y
WGP	190	Contracts/Capacity Release Area: Send Releasing Shipper/Replacing Shipper Agreements	Capacity Release	Award	WGP 116	New	N	N
CGT	15	Submit Bid for Capacity being Auctioned or Open for Bidding. A business practice standard to submit a bid on a "open for bidding" temporary or permanent capacity release offer and for capacity being auctioned by the pipelines	Capacity Release	Bid		New	N	Y
TGP	3	Develop EDI Data Sets for Capacity Release Bids - Data set to electronically transmit bids for released capacity.	Capacity Release	Bid	CGT 15	New	N	Y
WGP	113	Non-prearranged Bid – Inbound: Allows a customer to bid on a non-prearranged offer	Capacity Release	Bid	CGT 15	New	N	Y
WGP	127	Capacity Release – Bid on Non-Prearranged offer or Biddable prearranged offer	Capacity Release	Bid	CGT 15	New	N	Y
WGP	188	Contracts/Capacity Release Area: Send in Standalone Bids	Capacity Release	Bid	CGT 15	New	N	Y
CGT	19	Request to Bid on Non-Stand Alone Offers. A business practice standard that enables the SR to send a non-stand-alone temporary or permanent capacity release bid.	Capacity Release	Bid		New	N	Y
CGT	16	Submit Bid for Capacity being Auctioned or Open for Bidding Quick Response. A business practice standard to send to the SR a quick response acknowledging receipt of a Submit Bid for Capacity being Auctioned or Open for Bidding data set. Receipt does not constitute acceptance of the bid but simply acknowledges the bid has been received	Capacity Release	Bid		New	N	Y
TGP	4	Develop EDI Data Sets for Bid Validation - Data set to electronically provide information on the validation of bids for released capacity.	Capacity Release	Bid	CGT 16	New	N	Y
WGP	114	Bid Validation – Outbound: Our validation response to a customer's bid on a non-prearranged offer	Capacity Release	Bid	CGT 16	New	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
ENRON	24	Develop EDI Data Sets for Capacity Release Offer/Bid List Download. When a releaser or bidder requests a list of offers or bids that may be withdrawn, recalled, or reput, the transportation service provider will provide this information with this data set. Capacity release is an interactive process. Capacity Release Bidders may submit and withdraw bids several times during the bid period. Bid periods can be as short as one hour.	Capacity Release	Bid		New	Y	Y
TGP	5	Develop EDI Data Sets for Bid Notice of Withdrawal - Data set to electronically provide the notification that a service requestor is withdrawing a bid for released capacity.	Capacity Release	Bid		New	N	Y
TGP	6	Develop EDI Data Sets for Bid Withdrawal Confirmation - Data set to electronically confirm that the bid notice of withdrawal has been received and accepted.	Capacity Release	Bid		New	N	Y
ENRON	22	Develop EDI Data Sets for Prearranged Shipper Notification of a Higher Bid. This data set is used by the transportation serviced provider to notify the prearranged bidder of a higher bid . The transportation service provider has one hour to evaluate bids and notify a prearranged shipper of a higher bid.	Capacity Release	Match		New	N	N
ENRON	23	Develop EDI Data Sets for Prearranged Shipper Match a Higher Bid. This data set is used by the prearranged bidder to notify the transportation service provider whether the bidder matches the higher rate. After the transportation service provider notifies the prearranged shipper of a higher bid, the prearranged shipper has a short amount of time to notify the transportation service provider whether the prearranged shipper will match the higher rate.	Capacity Release	Match		New	N	Y
DUKE	28	Develop EDI Data Sets for Match Upload . The purpose of this transaction set is for a trading partner to be able to match a winning bid.	Capacity Release	Match	ENRON 23	New	N	Y
DUKE	29	Develop EDI Data Sets for Match Validation . The purpose of this transaction set is for a transportation service provider to send validation to the trading partner regarding the match upload.	Capacity Release	Match		New	N	Y
DUKE	39	Develop EDI Data Sets for Release Entitlements	Capacity Release	Misc.		New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		Download and its corresponding request transaction set, Request for Release Entitlements Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive capacity release entitlement information about (1) a specified contract, (2) all contracts for a specified releaser company or (3) all contracts for which the requester is acting as agent.						
ENRON	26	Develop EDI Data Sets for Releasing Shipper Detail Report This report provides capacity release information to the releaser. This information could possibly be provided by data set 5.4.3 Firm Transportation & Storage - Award Notice or 5.4.12 UPPD - Final Disposition.	Capacity Release	Misc.		New	Y	N
CGT	18	Modify of UPPD. A GISB standard Modify (UPPD standard 5.4.7) is needed to systematically tie not-stand alone offers together. Currently, manual intervention is required to link the offers together on the basis of notes provided by the service requester	Capacity Release	Offer		Modify	N	Y
DUKE	33	Add data elements to EDI Data Sets for Upload to Pipeline of Prearranged Deal (UPPD) (5.4.7) . The addition of these data elements to the EDI transaction set is required so that users of the Duke Energy pipelines' Internet Web site will have access to the same information as users of EDI transactions.	Capacity Release	Offer		Modify	N	Y
ENRON	6	Modify the Upload to Pipeline of Prearranged Deals (UPPD) for 1-Part/2-Part Rate Evaluation Conditions, Contingent Bids After Open Season Indicator, Contingent Bidder Next Highest Bidder Obligation Indicator, Additional Rate-Alternate Location Indicator, Transportation Service Provider Market Capacity Indicator, Service Quantity, Release Rights to Change Points Indicator, Bidder Address	Capacity Release	Offer		Modify	N	Y
CGT	49	Modify the Offer Download Request: Modify the Offer Download Request to allow the requester to specify a SR whose offers are being requested. Also, allow a secondary data option that would retrieve offers based on the release period instead of the offer posted date	Capacity Release	Offer		Modify	Y	Y
ENRON	3	Modify firm transportation and storage offer for 1-Part/2-Part	Capacity Release	Offer		Modify	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		Rate Evaluation Conditions, Contingent Bids After Open Season Indicator, Contingent Bidder Next Highest Bidder Obligation Indicator, Additional Rate-Alternate Location Indicator, Transportation Service Provider Market Capacity Indicator, Service Quantity, Release Rights to Change Points Indicator, Not Stand-alone Special Terms and Miscellaneous Notes						
ENRON	7	Modify the UPPD Notification for 1-Part/2-Part Rate Evaluation Conditions, Contingent Bids After Open Season, Contingent Bidder Next Highest Bidder Obligation, Additional Rate-Alternate Location, Service Quantity, Release Rights to Change Points	Capacity Release	Offer		Modify	N	Y
CGT	17	Request to Post Capacity Release Offer. A business practice standard to enable the service releaser to post a non-prearranged temporary or permanent capacity release offer.	Capacity Release	Offer		New	N	Y
WGP	111	Non-prearranged Offer – Inbound: Process to allow a customer to send a non-prearranged offer to us.	Capacity Release	Offer	CGT 17	New	N	Y
WGP	126	Capacity Release – Upload to pipeline of Non-Prearranged Deal	Capacity Release	Offer	CGT 17	New	N	Y
WGP	187	Contracts/Capacity Release Area: Send in an Offer (Non-Prearranged Deals)	Capacity Release	Offer	CGT 17	New	N	Y
WGP	112	Offer Validation– Outbound: Our validation response to a customers non-prearranged offer	Capacity Release	Offer		New	N	Y
CIG	6	Develop or Modify EDI Data Sets to support permitting a releasing shipper who posts a release for open bidding to elect to have the offer automatically reposted if no valid bids are received during open season.	Capacity Release	Offer		New	N	Y
DUKE	34	Develop EDI Data Sets for Copy Offer/Award Upload . The purpose of this transaction set is for a trading partner to be able to copy an existing capacity release offer or award.	Capacity Release	Offer		New	N	N
DUKE	35	Develop EDI Data Sets for Copy Offer/Award Validation . The purpose of this transaction set is for a transportation service provider to send validation to the trading partner regarding the copy offer/award upload.	Capacity Release	Offer		New	N	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
CGT	50	Capacity Release Status: A business practice standard to provide a report to the SR of capacity released and/or posted for release on a specific contract at a given point in time	Capacity Release	Offer		New	Y	N
DUKE	38	Develop EDI Data Sets for Offer Detail Download and its corresponding request transaction set, Request for Offer Detail Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive detailed information for (1) a specified offer or (2) offers for a specified date range. The detailed information can be requested with or without (1) bid information or (2) special terms and miscellaneous notes.	Capacity Release	Offer	CGT 50	New	Y	N
ENRON	25	Develop EDI Data Sets for Capacity Release Information Download. When requested by the releaser, the transportation service requester will provide this data to the releaser. This data set is a tool to provide information commonly requested by a releaser to prepare an offer.	Capacity Release	Offer	CGT 50	New	Y	N
WGP	9	Release Summary provides all public offer/award information to customers	Capacity Release	Offer	CGT 50	New	Y	N
ENRON	24	Develop EDI Data Sets for Capacity Release Offer/Bid List Download. When a releaser or bidder requests a list of offers or bids that may be withdrawn, recalled, or reput, the transportation service provider will provide this information with this data set. Capacity release is an interactive process. Capacity Release Bidders may submit and withdraw bids several times during the bid period. Bid periods can be as short as one hour.	Capacity Release	Offer		New	Y	N
CGT	20	Request to Recall Release Capacity. A business practice standard to define an on-demand request from the SR to recall capacity that has been released.	Capacity Release	Recall		New	N	Y
DUKE	26	Develop EDI Data Sets for Recall Upload . The purpose of this transaction set is for a trading partner to be able to submit a recall of capacity.	Capacity Release	Recall	CGT 20	New	N	Y
ENRON	20	Develop EDI Data Sets for Recall Capacity. This data set is used by the releasing shipper to notify the transportation service provider to recall capacity.	Capacity Release	Recall	CGT 20	New	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
TGP	1	Develop EDI Data Sets for Recall of Release Capacity - Data set to electronically transmit a request for the recall of released capacity.	Capacity Release	Recall	CGT 20	New	N	Y
WGP	128	Capacity Release – Notification of recall & response to notification of recall to releaser shipper & replacement shipper	Capacity Release	Recall	CGT 20	New	N	Y
CIG	5	Develop or Modify EDI Data Sets to support electronic recall and reput of released capacity.	Capacity Release	Recall	CGT 20	New	N	Y
WGP	191	Contracts/Capacity Release: Request to Recall/Reput	Capacity Release	Recall	CGT 20	New	N	Y
CGT	21	Request to Recall Release Capacity Quick Response. A business practice standard for the TSP to send a quick response acknowledging receipt of a Request to Recall Release Capacity data set	Capacity Release	Recall		New	N	Y
DUKE	27	Develop EDI Data Sets for Recall Validation . The purpose of this transaction set is for a transportation service provider to send validation to the trading partner regarding the recall upload.	Capacity Release	Recall	CGT 21	New	N	Y
WGP	10	View Recalls in capacity release to ensure accuracy	Capacity Release	Recall		New	Y	N
ENRON	21	Develop EDI Data Sets for Reput Capacity. This data set is used by the releaser to notify the transportation service provider to reput capacity to a bidder.	Capacity Release	Reput		New	N	Y
TGP	2	Develop EDI Data Sets for Reput of Release Capacity - Data set to electronically transmit a reput of released capacity.	Capacity Release	Reput	ENRON 21	New	N	Y
WGP	129	Capacity Release – Notification of reput & response to notification of reput to releaser shipper & replacement shipper	Capacity Release	Reput	ENRON 21	New	N	Y
CIG	5	Develop or Modify EDI Data Sets to support electronic recall and reput of released capacity.	Capacity Release	Reput	ENRON 21	New	N	Y
WGP	191	Contracts/Capacity Release: Request to Recall/Reput	Capacity Release	Reput	ENRON 21	New	N	Y
WGP	11	View Reputs for capacity release to ensure accuracy	Capacity Release	Reput		New	Y	N
NGPL	2	Develop EDI Data Sets which allow parties to place capacity advertisements, receive validation results of the placement of an advertisement, request a listing of all placed	Capacity Release	Want Ads		New	Y	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		advertisements and receive a listing of all placed advertisements.						
PGE	5	Develop EDI Data Sets to permit TSP customers to request that the pipeline post a want ad that expresses a customer's desire to buy or sell capacity through the capacity release program, which may include (1) Upload of Capacity Release Want Ad, (2) Upload of request to download posted data sets. This is not to be confused with posting capacity release offers and bids.	Capacity Release	Want Ads	NGPL 2	New	N	Y
GLAKES	1	Develop EDI Data Sets for electronic contracting Want Ads-Capacity Wanted.	Capacity Release	Want Ads	NGPL 2	New	N	Y
WGP	50	Capacity Want Ads (Informational Postings) – Outbound: Reports of parties seeking capacity	Capacity Release	Want Ads	NGPL 2	New	Y	Y
WGP	87	Capacity Want Ads (Informational Postings) Request – Inbound: Request for reports of parties seeking capacity	Capacity Release	Want Ads	NGPL 2	New	Y	Y
WGP	143	Capacity Release – Data set for shipper to send want ads	Capacity Release	Want Ads	NGPL 2	New	N	Y
WGP	204	EBB Area: Desired Capacity	Capacity Release	Want Ads	NGPL 2	New	N	Y
CGT	22	Request for TSP's List of Parties Approved for Electronic Contracting. A business practice standard to define an on-demand request of the TSP's customers who are approved for electronic contracting	Contracts			New	Y	N
CGT	47	Request for Contract Status: A business practice standard to request a summary of agreements (including contract and release capacity details relating to each agreement) held by the SR at a given point in time.	Contracts			New	Y	Y
DUKE	4	Develop EDI Data Sets for Contract Information Download and its corresponding request transaction set, Request for Contract Information Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive a list of contracts and associated contract information	Contracts		CGT 47	New	Y	Y
ENRON	27	Develop EDI Data Sets for Service Requester Contract Information Download. When requested by the service requester, the transportation service provider will provide contract information to the service requester. This	Contracts		CGT 47	New	Y	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		information includes basic contract information, contract points, point quantities, related contracts, and service requester contact information. Information may be requested including or excluding capacity release information. The service requester should be able to specify from the list of data elements in the data set what data elements the transportation service provider should respond to for the specified date range.						
NGPL	5	Develop EDI Data Sets which allow shippers to request existing contract information and receive existing contract information	Contracts		CGT 47	New	Y	Y
PGE	3	Develop EDI Data Sets to permit Transportation Service Provider's (TSP) customers to request contract details for contracts that they hold with the TSP, which may include (1) Upload of Request for Contract Details, and (2) Response to Request for Contract Details.	Contracts		CGT 47	New	Y	Y
CGT	48	Contract Status: A business practice standard to provide to the SR a summary of agreements (including contract and released capacity details relating to each agreement) held by the SR at a given point in time	Contracts			New	Y	Y
WGP	176	Summary of customer's company contract	Contracts		CGT 48	New	Y	Y
CIG	3	Develop or Modify EDI Data Sets to permit Park and Loan customers to request Park or Loan authority. A similar data set is required to communicate the approved deal for each PAL customer.	Contracts			New	N	Y
DUKE	5	Develop EDI Data Sets for Service Provider's Activity Information Download and its corresponding request transaction set, Request for Service Provider's Activity Information Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive a list of transportation service provider assigned activities and associated components.	Contracts			New	Y	N
DUKE	32	Develop EDI Data Sets for Contract Activity Download and its corresponding request transaction set, Request for Contract Activity Download . The purpose of these transaction sets is for a trading partner to be able to request	Contracts			New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		and to receive contract activity information for (1) a specified contract, (2) all contracts for a service requester or (3) all service requester contracts for which the trading partner is acting as agent.						
GLAKES	2	Develop EDI Data Sets for right of first refusal posting and bidding	Contracts			New	N	N
NGPL	6	Develop EDI Data Sets which detail Point Operator Agreement information.	Contracts			New	Y	N
WGP	35	Contractual Path Report – Outbound: Report allowing customer to see their contractual path for a given contract for a given date	Contracts			New	Y	N
WGP	72	Contractual Path Report Request – Inbound: Parameters for report allowing customer to see their contractual path for a given contract for a given date	Contracts			New	Y	N
WGP	161	Report of customer's point capacity. Capacity at any given receipt/delivery point	Contracts			New	Y	N
WGP	177	Review customer's contracts – select from a list to go to summary of the individual contract	Contracts			New	Y	N
CGT	43	Request for Service: A business practice standard to send to the TSP a request for new service.	Contracts	Electronic Contracting		New	N	Y
DUKE	44	Develop an EDI Data Set for New Contract Upload . The purpose of this transaction set is for trading partners to be able to request new transportation and storage contracts from the Transportation Service Provider.	Contracts	Electronic Contracting	CGT 43	New	N	Y
ENRON	28	Develop EDI Data Sets for Electronic Contract Request. The service requester would use this data set to send a request for service to the transportation service provider	Contracts	Electronic Contracting	CGT 43	New	N	Y
KOCH	10	Develop EDI Data Sets for a Service Request Form to be used by first time shippers or current shippers who wish to initiate a new service.	Contracts	Electronic Contracting	CGT 43	New	N	Y
NGPL	4	Develop EDI Data Sets which allow a service requester to request new service, receive validation results of the request, and electronically execute the request.	Contracts	Electronic Contracting	CGT 43	New	N	Y
NORAM	1	Develop EDI Data Sets for transportation customers to electronically request transportation service contracts for	Contracts	Electronic Contracting	CGT 43	New	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
		firm transportation, interruptible transportation, firm storage, interruptible storage, short term balancing and discount agreements. Data sets would include a customer request, response to the request, and electronic approval or denial.						
PGE	1	Develop EDI Data Sets for requests for new service which may include (1) upload of request for new service, (2) Response to upload of request for new service, (3) electronic signature authorizing new service contract, (4) notification of service contract activation.	Contracts	Electronic Contracting	CGT 43	New	N	Y
QUESTAR	2	Develop EDI Data Sets for electronic contracting -- interruptible service and short-term firm capacity.	Contracts	Electronic Contracting	CGT 43	New	N	Y
TGP	36	Develop EDI Data Sets for Request for a New Service Agreement - Data set would be used to electronically request a new contract/service agreement. The data set would only include the administrative attributes of a service agreement. Contractual language should be included in the proforma contract/service agreement listed in the service providers tariff.	Contracts	Electronic Contracting	CGT 43	New	N	Y
WGP	28	Transportation Request Forms for customers' use in requesting new services from Williams - Central	Contracts	Electronic Contracting	CGT 43	New	N	Y
WGP	117	Contracting - Data set to request for IT contract	Contracts	Electronic Contracting	CGT 43	New	N	Y
WGP	174	Create contract request.	Contracts	Electronic Contracting	CGT 43	New	N	Y
WGP	193	Contracts/Capacity Release Area: Request Transportation Service	Contracts	Electronic Contracting	CGT 43	New	N	Y
CGT	44	Electronic Service Contract: A business practice standard for the TSP to send to the SR a notification of receipt of a request for new service and a downloadable form of a contract awaiting electronic execution	Contracts	Electronic Contracting		New	N	Y
DUKE	45	Develop an EDI Data Set for New Contract Validation . The purpose of this transaction set is for a transportation service provider to send validation to the trading partner regarding the new contract upload.	Contracts	Electronic Contracting	CGT 44	New	N	Y
TGP	37	Develop EDI Data Sets for Approval of a Request for a New Service Agreement - Data set would be used to	Contracts	Electronic Contracting	CGT 44	New	N	Y

Nominations	Confirmations		Modify	Y	Y
WGP	157	Add Source as an element to Request for Confirmation Data Set 1.4.3.	Nominations	Confirmations		Modify	N	Y
WGP	158	Add Source as an element to Confirmation Data Set 1.4.4.	Nominations	Confirmations		Modify	N	Y
EPNG	5	Develop an EDI data set for custody limits for interconnect operators to limit quantities in aggregate scheduled to their points. The tariff of the supplying interconnect is used to determine reductions.	Nominations	Confirmations		New	N	N
KOCH	2	Develop EDI Data Sets for a Confirmation by Exception Agreement.	Nominations	Confirmations		New	N	N
KOCH	3	Develop EDI Data Sets for a Force Confirmation Warning Statement to allow shippers to view points/meters that will be force balanced prior to gas flow.	Nominations	Confirmations		New	Y	N
EPNG	8	Develop an EDI data set for multiple reductions for the customer to review all reductions and associated quantities applied to his transactions.	Nominations	Confirmations		New	Y	Y
EPNG	10	Develop an EDI data set for daily transaction management of nominations and confirmations.	Nominations	Confirmations		New	N	Y
EPNG	16	Develop an EDI data set for reporting scheduled quantity by delivery location report for interconnect operators for their total quantities scheduled to their point before lock down and processing.	Nominations	Confirmations		New	Y	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
TGP	50	Develop EDI Data Sets to provide upstream and/or downstream party confirmed volume information to the service requester.	Nominations	Confirmations		New	Y	Y
WGP	154	Request for the Ranking History for a transaction	Nominations	Confirmations		New	Y	N
WGP	155	Response to a Request for the Ranking History for a transaction	Nominations	Confirmations		New	Y	N
DUKE	12	Develop EDI Data Sets for Entitlements and Transportation Rights Download and its corresponding request transaction set, Request for Entitlements and Transportation Rights Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive a list of contracts and associated entitlement information.	Nominations	Misc.		New	Y	N
DUKE	13	Develop EDI Data Sets for. Access Area Zone Limits Download and its corresponding request transaction set, Request for Access Area Zone Limits Download . The purpose of these transaction sets is for a trading partner to be able to request and to receive summarized and detailed access area entitlement information.	Nominations	Misc.		New	Y	N
DUKE	14	Develop EDI Data Sets for Market Area Entry/Exit Entitlements Download and its corresponding request transaction set, Request for Market Area Entry/Exit Entitlements Download . The purpose of these transaction sets is for a trading partner or its agent to be able to request and to receive summarized and detailed market area entry/exit entitlement information.	Nominations	Misc.		New	Y	N
ENRON	10	Develop EDI Data Sets for Transportation Rate Informational so that the Service Requester requests from TSP the transportation rate for a nomination and the Transportation Service Provider provides to the Service Requester the transportation rate	Nominations	Misc.		New	Y	N
DUKE	8	Add data elements to EDI Data Sets for the Nomination (1.4.1) . The addition of these data elements to the EDI transaction set is required so that users of the Duke Energy pipelines' Internet Web site will have access to the same information as users of EDI transactions.	Nominations	Nominations		Modify	N	Y

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
DUKE	41	Add code values to the list of valid code values for the Transaction Type data element in the Nomination (1.4.1) , Scheduled Quantity (1.4.5) , Imbalance (2.4.4) and Transportation/Sales Invoice (3.4.1) . The addition of these transaction types will enable Texas Eastern to continue to support the existing No-Notice service provisions in Rate Schedules CDS and SCT of its tariff.	Nominations	Nominations		Modify	N	Y
DUKE	42	Add code values to the list of value code values for the Transaction Type data element in the Nomination (1.4.1) , Scheduled Quantity (1.4.5) , Imbalance (2.4.4) and Transportation/Sales Invoice (3.4.1) . The addition of these transaction types will enable the Duke Energy pipelines to continue to support the existing Suspense Gas provision in the General Terms and Conditions of its tariff. These transaction types will allow the Duke Energy pipelines to monitor the Service Requester's actions related to the Suspense Gas claim and to apply the tariff provisions correctly, beginning with Nominations and ending with Invoicing.	Nominations	Nominations		Modify	N	Y
ENRON	1	Add upstream HUB Contract Identifier Code and Downstream HUB Contract Identifier Code	Nominations	Nominations		Modify	N	Y
ENRON	2	Add processing rights indicator	Nominations	Nominations		Modify	N	Y
WGP	156	Add Source as an element to Nominations Data Set 1.4.1.	Nominations	Nominations		Modify	N	Y
CGT	25	Request to TSP for List of "Active" Nomination for a SR. A business practice standard to define an on-demand request of all active nominations of the SR. "Active nominations" include transactions that have passed the TSPs validation edit checks even if no gas is currently nominated	Nominations	Nominations		New	Y	N
CGT	26	List of Active Nominations for a SR. A business practice standard to send to the SR a list of all of their "active" nominations. The data elements include all "key" data elements as defined in 1.3.27	Nominations	Nominations		New	Y	N
CGT	27	Request for Nomination Recap. A Request for Nomination Recap EDI data set and web site look and feel standard allowing a SR to request from the TSP a report of all nominations submitted by the SR for a gas day. Data elements include: SR, TSP, and Gas Day	Nominations	Nominations		New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
CGT	28	Nominations Recap. An EDI data set and web site look and feel standard whereby the TSP responds to a SR's Request for Nomination Recap. The data set would communicate all nominations received by the TSP from the requesting SR. Nominations not yet scheduled should be marked as "pending scheduling. Data elements will be the same as the Scheduled Quantities with the addition of a "status" data element indicating whether the nomination is pending scheduling	Nominations	Nominations		New	Y	N
CIG	1	Develop or Modify EDI Data Sets to support requests for no notice service customers to request over-run deliveries up to five days in advance. A similar function is necessary to communicate the confirmed quantity for each day.	Nominations	Nominations		New	N	Y
CIG	4	Develop or Modify EDI Data Sets to permit a shipper to identify a single receipt or delivery point with multiple delivery or receipt points, (labelled one-to-many). All ranks are determined on the "many" side.	Nominations	Nominations		New	N	N
EPNG	1	Develop an EDI data set for Pending Transactions, which is a list of outstanding nominations and confirmations by contract and location for which a matching transaction has not been entered.	Nominations	Nominations		New	Y	N
EPNG	2	Develop an EDI data set for Online Modify, which would provide the ability to select a transaction, change the priority or quantity, and within 2 to 3 seconds, review the resulting transaction.	Nominations	Nominations		New	N	N
EPNG	13	Develop an EDI data set for make-up and payback transactions and authorizations.	Nominations	Nominations		New	N	Y
EPNG	17	Develop an EDI data set for transaction details for customers to manage their transactions, including contract category and type, rate schedule, location description, name of companies, primary lag on receipt or delivery locations, user ID of individuals modifying or adding information.	Nominations	Nominations		New	Y	N
KOCH	8	Develop EDI Data Sets for Nominations Error Statements which allow shippers to determine what errors are present in their nominations prior to gas flow.	Nominations	Nominations		New	Y	N

		Suspense Gas claim and to apply the tariff provisions correctly, beginning with Nominations and ending with Invoicing.						
WGP	159	Add Source as an element to Scheduled Quantity Data Set 1.4.5.	Nominations	Scheduling		Modify	N	Y
CGT	31	Request to TSP for Scheduled Quantities. Data set to be sent by a SR to a TSP requesting the Scheduled Quantities data set for a date or range of dates. When a range of dates is used, the request is deemed as a request for daily quantities for each day within the range as opposed to summarized quantities for the date range	Nominations	Scheduling		New	Y	N
EPNG	12	Develop an EDI data set for flow day diversions for a customer to divert scheduled quantities from one point to another during the nomination cycles.	Nominations	Scheduling		New	Y	N
EPNG	22	Develop an EDI data set for indicating a move to the next cycle or customers to indicate that at the transaction level movement of quantities reduced during processing from one cycle to another for possible rescheduling.	Nominations	Scheduling		New	N	Y
PGE	7	Develop EDI Data Sets to maintain a queue of interruptible shippers that is used to determine how IT nominations are scheduled on the pipeline, which may include (1) Upload of request for download of posted data sets, (2) Response to upload of request for download of posted data sets, (3) interruptible transportation queue.	Nominations	Scheduling		New	Y	N
WGP	150	Request for list of Schedule Ranks for Capacity Allocation	Nominations	Scheduling		New	Y	N
WGP	151	Response to a Request for list of Schedule Ranks for Capacity Allocation	Nominations	Scheduling		New	Y	N
ENRON	11	Develop EDI Data Sets for Service Requester Nomination Reconciliation so that the TSP provides a data set to the Service Requester at a legal entity level including the nomination, confirmation, and schedule quantity volumes by gas day and the upstream and downstream confirmation quantity. This enables the service requester to identify differences or mix matched in nominated to confirmed to scheduled to upstream/downstream gas volumes.	Nominations	SR Reporting		New	Y	N

Pipeline Survey Response Items with Duplicates Shown Sorted By Functional Area

Submitted By	#	Survey Item Description	Functional Area	Sub-Function	Duplicate	Item	Reporting	EDI
ENRON	13	Develop EDI Data Sets for Shipper Detailed Summary. The data is requested by the Service Requester and provided by the Service Provider. This data set provides an accumulation of detail information regarding nominated and scheduled volumes. The Service Requester should be able to specify from the list of data elements in the Request data set what data elements the TSP should respond to for the specified date range.	Nominations	SR Reporting		New	Y	N
ENRON	14	Develop EDI Data Sets for Estimated Deficiency Balance Report. This data set will allow Service Requesters to request and track their current tender and receipt deficiency balances.	Nominations	SR Reporting		New	Y	N
EPNG	9	Develop an EDI data set for reporting shrinkage percentage applied to each transaction	Nominations	SR Reporting		New	Y	N
EPNG	11	Develop an EDI data set for reporting nominations activity of a customer on each cycle.	Nominations	SR Reporting		New	Y	N
KOCH	7	Develop EDI Data Sets for Nomination/Confirmation/Scheduling Activity Statement to allow shippers to inquire, by meter or contract, information regarding nominations, confirmations, scheduling by day or month.	Nominations	SR Reporting		New	N	N
KOCH	9	Develop EDI Data Sets for a Pool Balance Statement to allow shippers to see their individual "daisy chain" information.	Nominations	SR Reporting		New	Y	N
TGP	47	Develop EDI Data Sets for to provide daily and month-to-date nominated and scheduled information by contract.	Nominations	SR Reporting		New	Y	N
TGP	48	Develop EDI Data Sets to provide daily and month-to-date nominated and scheduled information by contract	Nominations	SR Reporting		New	Y	N
CGT	24	Modify Nomination for Super Nominations. A business practice standard to enable the SR to submit a multiple pipeline nomination	Nominations	Super Nominations		New	N	Y
WGP	32	A3: Allocated Transportation/Storage Imbalances. ADD: To GISB SHIPPER IMBALANCE (811 IMBL DATA SET) – Injection, Withdrawal. Customer can inquire both Transportation and Storage Balances at this screen, such as	Storage			Modify	Y	Y
