

Nominations

- New Proposed Standard: A common order of data groups is established where appropriate. The following common data groups and elements are “core” (minimum requirements) for Pathed Nominations:

Contract Group :

Data Element	Notes	Abbreviation
Transportation Service Provider	(input if choice allowed/display otherwise)	
Service Requester Contract	enter	
Service Requester	Includes Agent as necessary - enter/display (default)	
Beginning Date	may be at contract or line item level - enter	
Ending Date	may be at contract or line item level - enter	
Model Type	may be at contract or line item level - enter/display (default)	

- Additional MA or BC data elements for company/contract may be displayed at the TSP’s discretion.
- Items defaulted by TSP may be displayed to the far right to minimize scrolling.
- Informational display fields may be added as appropriate.

Path or Detail Nomination Level:

Date/Model Group:

Data Element	Notes	Abbreviation
Beginning Date	May be at line item or contract level - Enter	
Ending Date	May be at line item or contract level - Enter	
Beginning Time	Enter/Display (default)	
Ending Time	Enter/Display(default)	
Model Type	may be at contract or line item level - enter/display (default?)	

- Additional MA or BC data elements for Date/Model Group may be displayed at TSP’s discretion.
- Items defaulted by TSP may be displayed to the far right to minimize scrolling.
- Informational display fields may be added as appropriate.

Receipt Data Group:

Data Element	Notes	Abbreviation
Location (optional name display)	enter	
Quantity	enter or could be default if Delivery Qty entered	
Upstream identifier Code	enter (DUN's number)	
Rank	enter/display (default)	
Upstream Contract Identifier	enter (contract #)	

- Additional MA or BC data elements for receipts may be displayed at the TSP's discretion.
- Items defaulted by TSP may be displayed to the far right to minimize scrolling.
- Informational display fields may be added as appropriate.

Delivery Data Group:

Data Element	Notes	Abbreviation
Location (optional name display)	enter	
Quantity	enter or could be default if Receipt Qty entered	
Downstream identifier Code	enter (DUN's #)	
Rank	enter/display (default)	
Downstream Contract Identifier	enter (contract #)	

- Additional MA or BC data elements for deliveries may be displayed at the TSP's discretion.
- Items defaulted by TSP may be displayed to the far right to minimize scrolling.
- Informational display fields may be added as appropriate.

Other Nominations Data Group:

Data Element	Notes	Abbreviation
Transaction Type	enter/display (default)	
Package ID	enter/Sender's Option, but field required	

- Additional MA or BC data elements that are transactions specific may be displayed at the TSP's discretion.
- Items defaulted by TSP may be displayed to the far right to minimize scrolling.
- Informational display fields may be added as appropriate.
- New Proposed Standard: The content area should display a matrix to allow display of multiple transactions where appropriate. Data entry may be done in the matrix and/or a single transaction format.
