

Dynegy

Proposed language to replace 4.3A/L:

A Transportation Service Provider who determines to provide transactional functions via electronic means (other than phone or fax), for each transaction upon inception of support for such service should:

- * Provide the service via GISB EBB/EDM
- * IF GISB EDI/EDM or FF/EDM exist for the function, provide the service via EDI/EDM or FF/EDM or both, utilizing modifications defined by the Transportation Service Provider to the existing file structures
- * Submit request for standardization to GISB including details of the EDI/EDM and/or FF/EDM implementation
