

Duke Energy Work Paper
EBB Internet Implementation Task Force
10/28/98

1. Proposed Standard

On the confirmation data entry screen, the data groups should be organized in logical groupings as defined in the Data Dictionary. The initial data element should be:

<u>Data Group</u>	<u>Initial Element</u>
Business Entity	Confirmation Requester
Contracts	Confirmation Service Contract
Dates	Beginning Date
Location	Location

For the Transaction Specific data group, either the Service Requester information or Upstream/Downstream information will be the initial elements, based on the business practices of the Confirmation Requester.

2. Proposed Standard

On the confirmation data entry screen, one of the following confirmation views should be supported:

- Location View
- Contract View

On the confirmation data entry screen for the location view, the data groups should appear in the following order:

- Business Entity
- Dates
- Location
- Contracts
- Transaction Specific

On the confirmation data entry screen for the contract view, the data groups should appear in the following order:

- Business Entity
- Contracts
- Dates
- Location
- Transaction Specific

3. Modification to Proposed Standard S8

The sub-categories and the labels for the category of Nominations should appear, if applicable, in the Navigational Area as follows:

- Nomination
- Confirmation
- Scheduled Quantity

Links supporting Mutually Agreeable sub-categories will follow these links. This does not preclude a further breakdown of sub-sub-categories within each sub-category from being listed in the Navigational Area.

Previous Proposed Standard S8

The sub-categories and the labels for the category of Nominations should appear, if applicable, in the Navigational Area as follows:

- Nomination
- Nomination Quick Response
- Request for Confirmation
- Confirmation Response
- Confirmation Response Quick Response
- Scheduled Quantity
- Scheduled Quantity for Operator

Links supporting Mutually Agreeable sub-categories will follow these links. This does not preclude a further breakdown of sub-sub-categories within each sub-category from being listed in the Navigational Area.

4. Proposed Standard

On the Confirmation Web page, data should be organized in the Form in logical groupings. The logical groupings of data are specified in the confirmations data dictionaries.

5. Proposed Standard

On the Scheduled Quantity Web page, data should be organized in the Form in logical groupings. The logical groupings of data are specified in the scheduled quantity data dictionary.
