

## Modifications to 7.3.35

BPS is proposing to delete standard 4.3.6 and to modify standard 4.3.23 to begin with the following words "Transportation Service Providers should establish an Informational Postings Web site accessible via the Internet". Given these changes Interruption 7.3.35 needs to be changed as follows:

7.3.35 According to NAESB WGQ Standard ~~4.3.6~~ 4.3.23, notices are now supposed to be posted on the Transportation Service Providers' (TSP) Web pages. Does this mean that a TSP is not required to provide any alternative form of communication for notices such as telephone or fax, particularly for those notices issued outside of business hours and on weekends?

According to NAESB WGQ Standard ~~4.3.6~~ 4.3.23, notices (~~critical notices, operation notices, system wide notices, etc.~~) are supposed to be posted on the Transportation Service Providers' (TSP) Web pages. Does this mean that a TSP is not required to provide any alternative form of communication for these specified notices?

Interpretation:

NAESB WGQ Standard ~~4.3.6~~ 4.3.23 does not specify any alternative means of notification aside from the Web page nor does it specify that the only means of notification is by means of the Web page. Alternative means of notification for particular information may be required by regulation, tariff or other NAESB WGQ standards. For example notices pertaining to system wide events of both a critical and non-critical nature (NAESB WGQ Standard 5.3.18) are implemented via both downloads (NAESB WGQ Standard 5.4.16) and the Web pages (NAESB WGQ Standard ~~4.3.6~~ 4.3.23).
