

TECHNICAL IMPLEMENTATION OF BUSINESS PROCESS

The Response to Request for Information (Response) is sent by the transportation service provider to the data requester in response to receiving and processing a Request for Information (Request). Within the prescribed time period, the requested report(s), if available, is sent.

If the data requester supplied a **request ID** in the Request, it is sent back to the data requester in the Response. The **data process date** and **data process time** indicate the date and time the Response was processed.

When returned in the Response, **service requester** and **statement recipient id** reflect their value as stated in the report(s) being requested.

The **data sets requested** data element from the Request is echoed back in the Response. The **data availability code**, which is included in the Response, indicates whether the requested report(s) is available.

SAMPLE PAPER TRANSACTION

Transportation Service Provider:	ABC Pipeline Company (006144656)
Requester:	I. M. Requester Company (808300594)
Statement Recipient:	I. M. Requester Company (803800594)
