	Surcharge Indicator Description (Surchg Ind Desc)		RCDG	C	nu	For EBB, at least one of Surcharge Indicator or Surcharge Indicator Description is required.
Sdtl	Total Surcharges (Tot Surchg)	Contains the total of all applicable surcharge(s).	RCDG	C	C	Mandatory when Surcharge Indicator specifies that a total of all applicable surcharge(s) is provided.
Hdr	Transportation Service Provider Data	A code which uniquely identifies the transportation service provider.	TSPDG			
	Transportation Service Provider * (TSP)		TSPDG	M	M	
	Transportation Service Provider Name (TSP Name)		TSPDG	M	nu	

* Indicates Common Code

** When a Transportation Service Provider's proprietary location code is employed pursuant to this standard, the parties agree that nominations, confirmations, scheduled quantities, and capacity release documents employing such code should be for one gas day at a time, and used only until there is a verified common code for the point associated with the proprietary location code. This would include daily nominations over a weekend. Within two months following the availability of the location the parties should employ the common code and no longer employ the proprietary code for identifying such location in the data sets related to the identified standards.

*** The Transportation Service Provider's version of the name.

To do list resulting from the development of the Firm Transportation dataset:

1. Add clarity to TIBP concerning Service Requester K as outlined in BPS instruction #1
2. Provide clarity in the TIBP that when an effective rate cannot be described/reported at reporting time using the data elements in the dataset, it should be communicated in Special Terms/Miscellaneous Notes. (BPS Instruction #2)
3. Is Contract Status needed? Note: Line Status still in dataset.
