3. Adoption of Agenda
4. Review of EII Data Sets

[**NOTE:** The EC adopted the “EII data sets” at their July 15 – 16 meeting. However, they sent the data sets back to IR for further work. It was noted that several data elements have an EBB usage of ‘SO’ and an EDI/FF usage of ‘BC’ (e.g., Operational Quantity data element in the Allocation). IR will review all of the Nomination, Flowing Gas and Invoicing related data sets (except for the Request for Confirmation and Confirmation Response) that are sent by TSPs. We will be looking for data elements with the usages noted above, and we will synch up the EDI/FF usage with the EBB usage.]
