Transactional Information - Firm Transportation

TECHNICAL IMPLEMENTATION OF BUSINESS PROCESS

Transactional Information - Firm Transportation is a report from a **transportation service provider** detailing contract information for new or amended firm transportation contracts. The report identifies the **contract holder** as the entity with the contractual relationship with the transportation service provider. The agreement between the contract holder and the transportation service provider is known as the **service requester contract**. **Contract begin date** and **contract end date** are reported without respect to rollover or evergreen provisions which are contained in the Index of Customers should they exist.

The **rate reporting level** specifies the level at which the rate data is presented. Rate and surcharge information is reported using various data elements such as **surcharge indicator**, **rate identification code**, and **reservation rate basis**.

There may be multiple values for the **posting date** and **posting time** in a given transmission.

Location data need not be presented in every report. Location data should be presented in the following cases:

- Contract Status is 'New'.
- Contract Status is 'Amended' and Amendment Reporting is 'All Data'.
- Contract Status is 'Amended', Amendment Reporting is 'Changes Only', and location data has changed.
