

**Information Requirements**  
**Storage Report (R98040 and R98050)**  
**As of ~~September 13~~October 9, 2000**

**Technical Implementation of Business Process**

The Storage Report allows parties to report on storage balances and activity. The **reporting type** indicates whether the report presents balance information or activity information. Balance type reports present the storage balance only; activity type reports present the storage balance and the activities that affect the balance.

The balance is presented in one of four ways. When location data is not present, the **ending storage balance** is used. When location data is present, at least one of the **location ending storage balance**, the **location ending storage balance** ~~—firm — firm~~, or the **location ending storage balance** ~~interruptible — interruptible~~ is used.

**Sample Paper Transaction**
