

## BUSINESS PROCESS AND PRACTICES

### A. Overview

~~Within the NAESB WGQ communication of information, certain data is conveyed through the use of code values. In any given data set, the TSP supports the code values applicable to its business model. When submitting upload data sets to the TSP, the availability of a list of code values supported by the TSP enables the preparation of valid data sets. The Supported Code Value Information document provides such a list.~~

#### Creditworthiness:

In the natural gas industry, transportation service providers provide services for requesting parties for which the transportation service provider is paid. As a part of the process for contracting for these services, the transportation service provider may need to request credit information from the service requester and an exchange of communication between the parties begins.
