

**To:** NAESB WGQ Business Practices Subcommittee Chairs

**From:** Dale Davis, Co-Chairs – NAESB WGQ Information Requirements Subcommittee

**Subject:** Issues Regarding:  
R98040/R98050 - Storage Report  
R98048 – Fuel Information

**Date:** December 29, 2003

---

At its meeting on December 9, 2003, the Information Requirements (IR) subcommittee discussed requests **R98040/R98050 and R98048**. These requests involve the development of new data sets to accommodate the sending of storage data and fuel matrix information, respectively. During IR's discussion, it was determined to send the following questions to BPS and the following motions were made:

**MOTION #1:** Send the following question to BPS:

As a result of processing request R98040/R98050, Information Requirements (IR) is developing the Storage Report data set. IR has determined that the best implementation for requesting this dataset would be to utilize the Request for Information – NAESB WGQ Standard 2.4.7.

NAESB WGQ Standards 2.3.51 through 2.3.53 set forth guidelines for the support of the Request for Information for various data sets and the timeframes for replying to such requests.

Should there be similar guidelines for the new Storage Report data set? If so, IR recommends the following change to NAESB WGQ Standard 2.3.51:

NAESB WGQ Standards 2.3.52 and 2.3.53 apply to the following Statements:

NAESB WGQ Standard No. 0.4.z1 Storage Report  
NAESB WGQ Standard No. 1.4.5 Scheduled Quantity  
NAESB WGQ Standard No. 2.4.3 Allocation  
NAESB WGQ Standard No. 2.4.4 Shipper Imbalance

**MOTION #2:** Send the following question to BPS:

As a result of processing request R98048, Information Requirements (IR) is developing the Fuel Information data set. IR has determined that the best implementation for requesting this dataset would be to utilize the Request for Information – NAESB WGQ Standard 2.4.7.

NAESB WGQ Standards 2.3.51 through 2.3.53 set forth guidelines for the support of the Request for Information for various data sets and the timeframes for replying to such requests.

Should there be similar guidelines for the new Fuel Information data set? If so, IR recommends the following change to NAESB WGQ Standard 2.3.51:

NAESB WGQ Standards 2.3.52 and 2.3.53 apply to the following Statements:

NAESB WGQ Standard No. 0.4.z2 Fuel Information

NAESB WGQ Standard No. 1.4.5 Scheduled Quantity

NAESB WGQ Standard No. 2.4.3 Allocation

NAESB WGQ Standard No. 2.4.4 Shipper Imbalance
