

## **Strawman Web EBB Layout**

The purpose of the attached strawman is to provide a method that can be used to define standard Web EBB structure/navigation. Since beauty (and layout design) is inherently in the eyes of the beholder, this strawman suggests a tabular (rather than graphic) method of codifying Web page structure.

This strawman is not meant to be exhaustive - additions/improvements to the following are necessary to create a complete standard. For example, "logon procedures" (if any), "viewing formats" and technology standards (e.g. HTML versions) are not addressed. Nonetheless, the structure below has proven useful in defining the hyperlink text, navigation and display information for a Web Site.

## Strawman Web EBB Layout

Page Level 1 (Home Page)	Page Level 2 (for each link in Level 1)	Page Level 3 (for each link in Level 2)
<b>Notices</b>	<b>Critical Notices</b>	<i>Critical Notices</i> OR Critical Notices
	<b>Operational Notices</b>	<i>Operational Notices</i> OR Operational Notices
	<b>System Wide Notices</b>	<i>System Wide Notices</i> OR System Wide Notices
<b>FERC Order 566 Affiliated Marketer Information</b>	<b>Affiliate Discount Notice</b>	<i>Affiliate Discount Notice</i> OR Affiliate Discount Notice
	<b>Affiliate Contract Information</b>	<i>Affiliate Contract Information</i> OR Affiliate Contract Information
<b>Operationally Available and Unsubscribed Capacity</b>	<b>Operationally Available Capacity</b>	<i>Operationally Available Capacity</i> OR Operationally Available Capacity
	<b>Unsubscribed Capacity</b>	<i>Unsubscribed Capacity</i> OR Unsubscribed Capacity
<b>Index of Customers</b>	<i>Index of Customers</i> OR Index of Customers	
<b>Tariff</b>	<i>Tariff</i> OR Tariff
