

## **Group<sup>1</sup> Proposal for New Approach to Internet Common Look and Feel Across Transportation Service Providers (TSP's)**

### **I. Ability to Easily Locate TSP's "Informational Website"**

- A. Use same term for common information, e.g., "Informational Website",
- B. Access current URLs for TSP's "Informational Websites" from one Website (URL)

### **II. Ability to Easily Locate Information Within TSP's**

- A. Use common terms and common order for categories of information, e.g., Notices, Capacity, Affiliate Information, Index of Customers and Tariff
- B. Group above categories together
- C. Provide a "Site Map" (table of contents) section using above common terms and categories

### **III. Ability to Easily Read Information Across TSP's**

- A. Display name of applicable TSP clearly on each page
- B. Place links to categories mentioned above in same general location of each page, e.g., left side of screen
- C. Define common technical workstation requirements that might improve readability, e.g., resolution
- D. Maximize space for content, e.g., minimize horizontal scrolling
