

Subj: **Comments on 10-31 draft NERC-NAESB MOU**
Date: 11/4/02 5:20:18 PM Central Standard Time
From: Linda Horn – We Energies

The following are comments from We Energies regarding the 10-31-02 draft of the NERC-NAESB MOU.

Section 4.1 - the timeframes (what month) should be specified as to when the information (NAESB WEQ annual plan or NERC projected standards activity) will be provided.

Appendix A - use of the NERC functional model is probably a good means for providing demarcation at this point, however as the NERC FM evolves (or perhaps other models develop), Appendix A will need to change. I believe this is the intent, but wanted to mention this in case it is not the intent.

Thanks
