- The above nomination opportunities represent times which a shipper can expect to be supported by TSP's and all confirming parties for synchronization across the N. American pipeline network (GRID).
- "Unused" capacity means additional pipeline capacity available for scheduling as determined by the TSP.
- The "scheduled quantity and bump notices" means that the response from the TSP is in the Shipper's designated site by the time stated above.
- **NOTE 1:** The activity of bumping should occur during both of these cycles, with effective times of 9AM (Day 2) for 6PM nominations and 5PM for 10AM nominations. Additional bumping opportunities are to be determined by the TSP and its customers and, as necessary, through regulatory filings.
