2. The Parties intend that the quantity of gas actually delivered and received each day at each Location will equal the Scheduled Quantities for that location. Each Party will allocate quantities which have been delivered and received at each Location among the Service Requester Agreements on its system pursuant to the Scheduled Quantities at such locations. Any Operational Imbalance created, when the actual physical flow is different than the Scheduled Quantities, will be the "Operational Imbalance," which will be the responsibility of the Parties to eliminate pursuant to this Agreement. [Parties may establish a maximum Operational Imbalance and procedures for immediate or accelerated resolution if such maximum is reached.].
3. Estimated operating quantities flowing at each Location shall be used _____³ during any current period to determine the estimated Operational Imbalance at such Location, with physical flow adjustments to be made during that current period as mutually agreed to by both Parties to attempt to maintain or achieve an Operational Imbalance of zero at such point; provided, however, _____.⁴
4. a. The actual measured quantity of gas at the Location each month shall be determined and communicated by the measuring Party ("Measurement Party") by facsimile, electronic interface system or in writing to the other Party in accordance with GISB Standard 2.3.7. The actual measured quantity shall be determined pursuant to the applicable provisions of the Measurement Party's Tariff or applicable measurement procedures. Operational Imbalances shall be calculated initially by Measurement Party and shall be agreed to _____⁵ by the Parties prior to the _____ day of such period.
b. Operational imbalances shall be resolved as follows:

_____.
5. In the event that a capacity constraint occurs on either Party's system which results in curtailment of quantities through a Location,

_____.

96 Agreement or Exhibit 1.]
- 98 8. Notwithstanding the termination of this Agreement, the Parties agree to
100 reconcile and eliminate any remaining Operational Imbalance pursuant to the
102 terms and conditions of this Agreement within _____ of termination

114 is entered into by the Parties with the understanding that the balancing activities
provided for hereunder will not subject any non-jurisdictional entity to regulation
116 by the Federal Energy Regulatory Commission as a "natural gas Company"
under the provisions of the Natural Gas Act. If, at any time, it should be
118 determined that such balancing activities do result in such regulation, then this
Agreement shall immediately terminate, and any remaining Operational
120 Imbalance shall be resolved by the Parties within _____ after
termination of this Agreement.
- 122 12. Any entity which shall succeed by purchase, merger or consolidation to the
124 properties, substantially as an entity, of either Party, shall be subject to the
obligations of its predecessor to this Agreement. No other assignment of this
Agreement or of any of the rights or obligations hereunder shall be made.
