

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Affiliate		Affiliate - Another person or organization, which controls, is controlled by, or is under common control with such person or organization. The term "control" (including "controlling" or "controlled by") includes the possession, directly or indirectly, whether acting alone or in conjunction with others, of the authority to direct or cause the direction of the management or policies of a company. A voting interest of 10 percent or more creates a rebuttable presumption of control.	<i>Used, not defined.</i>	
Alternative Dispute Resolution		Alternative Dispute Resolution - A process using a neutral facilitator, where parties meet and negotiate a binding settlement to resolve a dispute. This process should be used as soon as it is apparent that the parties cannot settle the dispute amongst themselves. Forms of mediation, arbitration, settlement conferences and mini-trials may be used.		
Applicable Regulatory Authority		Applicable Regulatory Authority - The state regulatory agency or other local Governing Body that provides oversight, policy guidance and direction to energy utilities and market participants through regulations and orders.	Applicable Regulatory Authority: The state regulatory agency or other local governing body that provides oversight, policy guidance, and direction to any parties involved in the process of providing energy to retail access Customers through regulations and orders.	<i>Used, not defined.</i>
Applicant			Applicant: The party seeking credit from another party. Either the Supplier or the Distribution Company may take on the role of Applicant.	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Assumption of Receivables				Assumption of Receivables: The Billing Party assumes the Non-Billing Party's receivables and sends the Non-Billing Party payment at predetermined intervals for all Non-Billing Party amounts billed that are not In Dispute, regardless of when (or whether) the Customer pays the Billing Party. The Customer remains responsible for payment to the Billing Party.
Bill Ready		Bill Ready - A consolidated billing practice in which the billing party receives the calculated charge amount(s) directly from the non-billing party in lieu of the billing party calculating it directly from the rate.		<i>Used, not defined.</i>
Billing Cycle		Billing Cycle - The period of days for which a Utility or Supplier produces the Customer's bill.		<i>Used, not defined.</i>
Billing Party			Billing Party: The party performing billing services for one or more parties.	<i>Used, not defined.</i>
Billing Service Agreement		Billing Service Agreement - A legally binding agreement between the Utility and the Supplier used when one of the parties is performing consolidated billing for the other party. The agreement details expectations and responsibilities of each party.	<i>Used, not defined.</i>	Sample BSA Included.
Budget Billing		Budget Billing - Calculation of uniform monthly payments over a set period of time, typically 12 months, by estimating a customer's future bill amounts and dividing by a time period, which allows for equal monthly payments, not counting a final "true-up" at the end of the period to account for actual customer usage and bill amounts.		
Cash Deposit			Money provided by one party to the other to secure performance of an agreement or compensate for possible loss or damage.	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Certificate of Incumbency			Certificate of Incumbency (Secretary Certificate): A document attesting to the name and signature of the officers authorized to sign the Guaranty.	<i>Specific to creditworthiness</i>
Challenge			Challenge: The Applicant's request for a review of the Creditor's creditworthiness determination made shortly after that determination	<i>Specific to creditworthiness</i>
Commercially Reasonable		Commercially Reasonable - Reasonable to a knowledgeable person in the industry or business.		
Complaint		Complaint - A complaint is when a customer contacts a market participant to protest, criticize or find fault with service, billing or procedures and is dissatisfied with the initial response.		
Confidential Information			Confidential Information: Nonpublic information concerning the financial condition of the Applicant, or any of the Applicant's affiliates, that is disclosed to the Creditor by the Applicant or Applicant's affiliates.	
Consolidated Billing Option		Consolidated Billing Option - A Customer billing option that combines Utility and Supplier charges on one statement.	Consolidated Billing: The Billing Party produces a Customer bill consolidating the energy, transmission and distribution related charges of the Distribution Company and the Supplier, for which a single payment from the Customer is expected.	Consolidated Billing: The Billing Party produces a Customer bill consolidating the energy, transmission and distribution related charges of the Utility and the Supplier, for which a single payment from the customer is expected.
Cramming		Cramming - The process of placing charges for unordered and unwanted services on the Customer's electricity bill.		
Creditor			Creditor: The party granting credit to another party. Either the Supplier or the Distribution Company may take on the role of Creditor.	
Credit Application Form			Credit Application Form: The Creditor's form for obtaining identification and financial data about an Applicant.	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Customer		Customer - Any entity that takes service for their own consumption over the transmission and/or distribution facilities of a Utility.	<i>Used, not defined.</i>	<i>Used, not defined.</i>
Customer Class		Customer Class - A classification used for Load Profiling. Customers are typically grouped into residential, commercial, and industrial categories, based on their demand characteristics. These classes can have sub-classes, e.g., large industrial vs. small industrial or residential with electric heating vs. residential without electric heating.		
Customer Class Segment		Customer Class Segment - A classification used for Load Profiling. Customers can be grouped within the customer class or sub-class based on more similar demand characteristics.		
Customer Service Representative (CSR)		Customer Service Representative (CSR) - Staffed position within a Utility or Supplier organization that handles initial Customer contacts, normally by telephone, for purposes of providing information or resolving problems.		
Default Provider			Default Provider: The provider of energy supply service to Customers in a competitive energy market who are not being served by a competitive energy Supplier. This service is provided pursuant to rules established by the Applicable Regulatory Authority. (Glossary Comm.)	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Default Service		Default Service - Energy supply service provided, pursuant to rules established by the Applicable Regulatory Authority, to Customers in a competitive energy market who are not being served by a competitive energy Supplier for any number of reasons, including the following: 1. The Customer's chosen Supplier no longer provides service for the Customer's account; 2. The Customer is unable to locate a Supplier to service their account; or 3. The Customer has not chosen a Supplier. Laws and regulations govern whether this service is available long-term as an alternative to competitive service or only during a transition period, after which Customers are expected to select a Supplier.		
Demand		Demand - For Electricity: the amount of electricity, typically measured in kilowatts (kW), that Customers use instantaneously, or is averaged over a set period of time. For Natural Gas: the rate at which gas is delivered to or by a system, part of a system, or a piece of equipment, expressed in cubic feet or therms, over a set period of time.		
Distribution			Used, not defined.	Used, not defined.
Distribution Company			Distribution Company: A regulated entity that constructs and maintains the distribution facilities which deliver energy to the Customer.	Not used. Uses Utility instead.
Drop		Drop - The termination of the relationship between the Customer and Supplier for various reasons: non-pay, term of contract, Supplier stops service of customer class, at request of customer, etc.		

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Drop Request		Drop Request - A uniform electronic transaction sent by a Supplier to discontinue sales service to a Customer, or a Utility in response to a notification from a Customer to the Utility to cease supply arrangements with a Supplier.		
Drop Response		Drop Response - A transaction sent to acknowledge the receipt of a Drop Request.		
Dual Billing		Dual Billing - An approach under which the Utility and Supplier render separate bills to the Customer, each containing charges by that party for the services provided, for which separate payments from the Customer are required.	<i>Used, not defined.</i>	<i>Dual Billing: The Utility and Supplier render separate bills to the Customer, each containing charges by that party for the service provided, for which separate payments from the Customer are expected.</i>
Dynamic Load Profiling		Dynamic Load Profiling - A load profiling methodology whereby Customer energy demand profiles are derived from actual trading day patterns of energy use, by telemetering loads from sample Customer points following the end of the measurement period.		
Eligibility		Eligibility - Refers to Customers who have met a legal prerequisite which allows them to choose an alternative Supplier.		<i>Talks about being eligible for consolidated billing, but doesn't used a defined term.</i>
Enroll/Enrollment		Enroll/Enrollment - Initial Customer sign-up for energy supply with a Supplier; enrolled to receive service, but not actually switched yet.		<i>Used, not defined.</i>
Event-Driven Reconsideration			<i>Event-driven Reconsideration: A re-evaluation of an Applicant's creditworthiness performed in response to a material change in its credit rating or financial condition.</i>	
Gas Day		Gas Day - A period of 24 consecutive hours commencing at 9:00 AM Central Time on a given calendar day.		

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Guarantor		Guarantor - An entity that provides a formal assurance as security that another's debt or obligation will be fulfilled.	Guarantor: The entity who agrees to guarantee the Applicant's financial obligations, recognizing that such entity will be ultimately obligated to meet the Creditor's creditworthiness requirements.	
Guaranty			At the request or on the instructions of the principal, the guarantor undertakes to pay a fixed amount to the beneficiary, upon the latter's request and upon certain conditions contained in that guaranty being met.	
Governing Documents		Governing Documents - The documents that prevail over the relationship between a Supplier and Utility. These documents include but are not limited to: Supplier Service Agreement, Billing Services Agreement; Trading Partner Agreement, Utility and Supplier tariffs	Governing Documents: Documents that determine the interactions among parties, such as: regulatory documents (tariffs, rules, regulations), contractual agreements, and Distribution Company operational manuals.	<i>Used, not defined.</i>
In Dispute		In Dispute - A bill status that prevents collection action from being taken on the disputed amount.		<i>Used, not defined.</i>
Interval Data		Interval Data - Customer load data collected by a meter or metering system reflecting actual energy usage for each time interval (e.g., hour, half-hour, etc.) during the billing cycle.		
Letter of Credit			A letter issued by a bank authorizing the bearer to draw a stated amount of money from the issuing bank, its branches, or other associated banks or agencies, provided that the terms of the letter are met.	
License		License - Formal permission from the Applicable Regulatory Authority to do business in a specific state or territory.		<i>Used, not defined.</i>

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Load		Load - For Electricity: an end-use device or Customer that receives power from the electric system. Load should not be confused with Demand, which is the measure of power associated with a load. For Natural Gas: the amount of gas delivered or required at any specified point or points on a system; load originates primarily at the customer's gas consuming equipment.	<i>Used, not defined.</i>	
Load Profile		Load Profile - An allocation of a Customer's electricity usage over a period of time. Load profiles can be used by Suppliers and system operators to forecast electricity supply requirements and to determine the cost of serving a Customer; profiles may represent individual Customers or Customer class averages.		
Load Profiling		Load Profiling - The process of allocating the cumulative kilowatt-hours used by a Customer in some time period across each hour or sub-hour of the cycle. Load profiling is based on the aggregate characteristics of the Customer class or segment in which the Customer resides.		
Local Governing Body		Local Governing Body - The entity authorized by a municipality, county or state to define and uphold rules and regulations that apply to market participant activities.	<i>Used, not defined.</i>	
Master Service Agreement		Master Service Agreement - An umbrella agreement that contains all agreements necessary between a Utility and Supplier. The Master Service Agreement includes, but is not limited to, the Billing Service Agreement, the Meter Service Agreement and the Trading Partner Agreement.		

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Material Change			Material Change: Any change in the Applicant's (or Guarantor's) financial or other condition that might reasonably affect the amount of unsecured credit extended to that Applicant or may impact the Applicant's ability to perform on its obligations.	
Meter		Meter - A device for measuring and totaling the variable consumption and/or demand of energy.		
Meter Service Agreement		Meter Service Agreement - A legally binding agreement between the Utility and the Supplier used when one party is providing metering services for the other party. The agreement details expectations and responsibilities of each party.		
Nomination		Nomination - A request for a physical quantity of natural gas under a specific purchase, sales, or transportation agreement or for all contracts at a specific point.		
Non-Billing Party			Non-Billing Party: The party whose charges are being combined into a statement (or invoice) prepared and rendered by another party.	Used, not defined.
Off-Cycle Switch		Off-cycle Switch - A switch to a different Supplier or energy supply source, which does not occur on the Customer's normal meter read date.		
Pay As You Get Paid Model		Pay As You Get Paid Model - Billing Party payment option when providing Consolidated Billing where the Billing Party forwards payment to the Non-Billing Party for the Non-Billing Party charges only after receiving payment from the Customer. The Customer remains responsible for payment to the Non-Billing Party.		Pay as You Get Paid: The Billing Party forwards payment to the Non-Billing Party for the Non-Billing Party charges only after receiving payment from the Customer. The Customer remains responsible for payment to the Non-Billing Party.
Periodic Reconsideration			Periodic Reconsideration: A routine review of an Applicant's creditworthiness.	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Prepayment			Money provided by one party to the other to pay for goods or services not yet rendered, to secure performance of an agreement or compensate for possible loss or damage.	
Rate Class		Rate Class - A group of Customers served under a single regulated tariff.		
Rate Ready		Rate Ready - Refers to the practice in which the non-billing party provides rate information to the billing party sufficient to calculate the non-billing party's charges).		<i>Used, not defined.</i>
Reconciliation		Reconciliation - The process by which initial load allocations are "trued-up" to known metered loads; preliminary reconciliation can be performed using bulk area loads; final reconciliation can be performed using actual Customer meter readings for the current month being settled.		
Registration Agent		Registration Agent - An independent entity facilitating switches and performing record keeping for a specified geographical area.		
Regulation		Regulation - A rule or law prescribed by competent authority.	<i>Used, not defined.</i>	<i>Used, not defined.</i>
Retail Access		Retail Access - Program(s) initiated through a combination of legislation and/or regulatory commission actions that create the opportunity for retail Customers to competitively obtain energy supplies and other services that were formerly only available through the regulated Utility.	<i>Used, not defined.</i>	<i>Used, not defined.</i>
Seamless Move		Seamless Move - Simplified process by which a customer moving within a service territory can continue with their current Supplier at the new premises.		
Security Interest in Collateral			A right, title, claim, or share in assets that exists by contract as security for payment or performance of an obligation.	

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Settlement		Settlement - The hourly accounting process by which costs of energy supplied into the grid by generation operators are reconciled with payments for energy delivered to Customers by their Suppliers; generally performed by an ISO or control area authority; the means by which bilateral or "PoolCo" arrangements between generators and retail Suppliers are supported.	<i>Used, not defined.</i>	
Single Retailer		Single Retailer - also known as Supplier-centric, an alternative way to implement Retail Access in which an end-use Customer selects among suppliers of bundled electric and/or natural gas service that purchase the delivery service from the Utility. Thus, the Supplier bills the Customer for both commodity and delivery costs and generally serves as the primary point of contact for the Customer for non-emergency services.	<i>Single Retailer Model: In this market model, a supplier purchases energy, transmission and distribution related services, and therefore all charges on the bill are supplier charges. A single payment from the customer is expected.</i>	<i>Single Retailer Billing: The Supplier produces a Customer bill for all energy, transmission, and distribution related services. In this market model, a supplier purchases energy, transmission and distribution related services, and therefore all charges on the bill are supplier charges. A single payment from the customer is expected.</i>
Slamming		Slamming - The act of changing a Customer's chosen Supplier without the Customer's consent.		
Static Load Profiling		Static Load Profiling - A load profiling methodology whereby Customer energy Demand profiles are entirely or mostly determined prior to the measurement period, based upon historical interval data with no or minimal new interval data. A static Load Profile may be updated, modified or adjusted by applying econometric models, weather normalizations, etc.		
Supplier		Supplier - Any entity that sells energy to Customers using the transmission and/or distribution system of a Utility.	<i>Supplier: Persons engaged in the competitive sale of energy to end-users.</i>	<i>Used, not defined.</i>

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Surety Bond			An insurance policy that covers payments to the principle in the event that the other party does not perform under the contract.	
Switch		Switch - A Customer move from one supply source to another.		<i>Used, not defined.</i>
Switch Date		Switch Date - Date on which a Customer is actually assigned to a new Supplier.		
Switch Request		Switch Request - A request from a Supplier to switch a Customer to begin receiving service from that supply.	<i>Used, not defined.</i>	
Switch Response		Switch Response - A response sent by the Utility to the Supplier that submitted a Switch Request that verifies a Customer's Switch to the requesting Supplier, provides certain Customer information and, if the Switch Request is denied, provides a reason or code that explains why the Customer was not switched.		
Trading Partner Agreement		Trading Partner Agreement - A legally binding agreement between the Utility and the Supplier defining each party's responsibilities for doing business with each other using electronic data interchange protocols for transmitting Uniform Electronic Transactions. The agreement details expectations and responsibilities of each party.		

NAESB REQ Glossary Subcommittee - Comparison of REQ Subcommittee Usage of Terms

Term	Preferred Definition	Glossary Subcommittee	SUIS	CPS
Transmission/ Transportation		Transmission - For Electricity: interconnecting high voltage electric lines that move electricity from a generation facility to the distribution lines of an electric distribution company. For Natural Gas: pipelines installed for the purpose of transmitting gas from a source or sources of supply to one or more distribution centers, to one or more large volume customers, or a pipeline installed to interconnect sources of supply. Traditionally, these systems operate at higher pressure than distribution pipelines that connect the gas system to most Customers.	<i>Used, not defined.</i>	<i>Used, not defined.</i>
Transmission Losses		Transmission Losses - The actual or estimated amount of energy consumed during the process of transmitting energy across a service territory's transmission lines.		
Uniform Electronic Transaction		Uniform Electronic Transaction - Specific data arrangements for trading information, making business requests and exchanging other information, encompassing a number of electronic media and utilizing specified transport protocols.		<i>Used, not defined.</i>
Upstream Transportation			<i>Used, not defined.</i>	
Utility		Utility - A regulated electric or gas entity that constructs and maintains the transmission and/or distribution facilities which deliver energy to the Customer and which may also provide generation services. (Needs discussion as to whether "generation services" is needed.)		<i>Used, not defined.</i>
Utility Account Number		Utility Account Number - The identifier used by the Utility to uniquely identify a Customer account
