

Southern's recommendation is that the overall direction of this Model should be addressed by the group prior to submitting specific comments.

Southern had the following questions regarding this Model.

Questions concerning Distribution Company-Supplier Service Agreement:

1. Where did this outline come from?
2. Is this straight out of UBP?
3. Shouldn't we delete references to UBP?
4. Did UBP have an introduction to this part?
5. Where would this section go in the MBP? Is it part of MPI MBP or is it a separate stand-alone MBP? How does numbering get addressed? What about Billing Services Agreement, which is a CPS Document?
6. Will the SUIIS ask the EC to hold off on approval of the MPI MBP until all of the Models in the MPI MBP have been addressed?
