

GISB - Technical Subcommittee Change Log (post Version 1.7)

G873NMST – Nominations (1.4.1)

Data element ref to X12

Request#	Description	Subcom	Date	Approved by EC
R97058B	Heading N1: For the data element Transportation Service Provider, modify the data element name to "Transportation Service Provider/Transportation Service Provider Proprietary Code"	IR	10/14/02	
R97058B	Heading N1: For the data element Service Requester, modify the data element name to "Service Requester/Service Requester Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Upstream Identifier Code, modify the data element name to "Upstream Identifier Code/Upstream Identifier Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Downstream Identifier Code, modify the data element name to "Downstream Identifier Code/Downstream Identifier Proprietary Code"	IR	10/14/02	

Sample X12 Transaction

Request#	Description	Subcom	Date	Approved by EC

X12 Mapping

Request#	Description	Subcom	Date	Approved by EC
R97058B	Heading N1 segment (position 0500): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Transportation Service Provider or Service Requester."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Transportation Service Provider Proprietary Code or Service Requester Proprietary Code."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N104: Replace data element list in the element note with "Transportation Service Provider/Transportation Service Provider Proprietary Code, Service Requester/Service Requester Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Upstream Identifier Code or Downstream Identifier Code."	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Upstream Identifier Proprietary Code or Downstream Identifier Proprietary Code."	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N104: Replace data element list in the element note with "Upstream Identifier Code/Upstream Identifier Proprietary Code, Downstream Identifier Code/Downstream Identifier Proprietary Code"	IR	10/14/02	

Transaction Set tables

Request#	Description	Subcom	Date	Approved by EC
R97070	“LQ Segments Subdetail” table: For data element Transaction Type, add the following code values and code value descriptions in numerical order by code value: 57 - Authorized Point Overrun Backhaul, 58 - Authorized Point Overrun Shorthaul	IR	06/10/02	
R01021	LQ Segments (Sub-detail) table: For data element Transaction Type, add the following code values and code value descriptions in numerical order by code value: 63 – Imbalance Payback from Transportation Service Provider – Prior Business Period 64 – Imbalance Payback to Transportation Service Provider – Prior Business Period	IR	07/09/03	
R00011	LQ Segments (Sub-detail) table: For data element Transaction Type, add the following code values and code value descriptions in numerical order by code value: 59 – Bank 60 – Bank Payback 61 – Take 62 – Take Payback	IR	10/06/03	

G874NMQR – Nomination Quick Response (1.4.2)

Data element ref to X12

Request#	Description	Subcom	Date	Approved by EC
R97058B	Heading N1: For the data element Service Requester, modify the data element name to “Service Requester/Service Requester Proprietary Code”	IR	10/14/02	
R97058B	Heading N1: For the data element Transportation Service Provider, modify the data element name to “Transportation Service Provider/Transportation Service Provider Proprietary Code”	IR	10/14/02	

Sample X12 Transaction

Request#	Description	Subcom	Date	Approved by EC

X12 Mapping

Request#	Description	Subcom	Date	Approved by EC
R97058B	Heading N1 segment (position 0500): N103: Add element note “Parties should mutually agree to use the Transportation Service Provider’s proprietary entity code when the D-U-N-S® Number is not available.”	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: code value 1: Add code value note “For NAESB WGQ, this code value may only be used when sending the Service Requester or Transportation Service Provider.”	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: Mark the code value SV [Service Provider Number] as “used”. Add code value note “For NAESB WGQ, this code value may only be used when sending the Service Requester Proprietary Code or Transportation Service Provider Proprietary Code.”	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N104: Replace data element list in the element note with “Service Requester/Service Requester Proprietary Code, Transportation Service Provider/Transportation Service Provider Proprietary Code”	IR	10/14/02	

Transaction Set tables

Request#	Description	Subcom	Date	Approved by EC

G873RQCF – Request for Confirmation (1.4.3)**Data element ref to X12**

Request#	Description	Subcom	Date	Approved by EC
R99031	Sub-detail N9: After the Package ID row, add a new N9 entry with usage MA as follows: “N9 MA Confirmation Intraday Identifier”.	IR	05/13/02	
R99037	Heading REF: Add a new row between the N1 Confirming Party and N1 Confirmation Requester as follows: “REF SO Confirmation Role”. Skip a blank row between the REF Confirmation Role row and the N1 Confirmation Requester row so that the end result is as follows: N1 M Confirming Party REF SO Confirmation Role N1 M Confirmation Requester	IR	05/13/02	
R99037	Detail LQ segment: Add a new row between the “ M Ending Time” and “LCD M Location/Location Proprietary Code” rows as follows: “LQ SO Confirmation Role” Skip a blank row between the Ending Time row and the LQ Confirmation Role row and again between the LQ Confirmation Role row and the LCD Location/Location Proprietary Code row so that the end result is as follows: M Ending Time LQ SO Confirmation Role LCD M Location/Location Proprietary Code	IR	06/10/02	
R97058B	Heading N1: For the data element Confirming Party, modify the data element name to “Confirming Party/Confirming Party Proprietary Code”	IR	10/14/02	
R97058B	Heading N1: For the data element Confirmation Requester, modify the data element name to “Confirmation Requester/Confirmation Requester Proprietary Code”	IR	10/14/02	
R97058B	Detail N1: For the data element Confirmation Service Identifier Code, modify the data element name to “Confirmation Service Identifier Code/Confirmation Service Identifier Proprietary Code”	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Upstream Identifier Code, modify the data element name to “Upstream Identifier Code/Upstream Identifier Proprietary Code”	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Downstream Identifier Code, modify the data element name to “Downstream Identifier Code/Downstream Identifier Proprietary Code”	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Service Requester, modify the data element name to “Service Requester/Service Requester Proprietary Code”	IR	10/14/02	

Sample X12 Transaction

Request#	Description	Subcom	Date	Approved by EC

X12 Mapping

Request#	Description	Subcom	Date	Approved by EC
R99031	Sub-detail N9 segment (position 0900): N902: Add “, Confirmation Intraday Identifier” between the Associated Contract and Confirmation User Data 1 data elements.	IR	05/13/02	
R99037	Heading REF segment (position 0800): mark as “used”. Add segment note “For NAESB WGQ, this segment is sender’s option.” REF01: mark as “must use”; mark code value COR [Confirmation Role] as used [we will request	IR	05/13/02	

	this code value from ASC X12] REF02: mark as "must use". Add element note "Confirmation Role". Insert code values "OPR -Operator" and "UDP - Upstream/Downstream Party".			
R99037	Detail LQ segment (position 0300): mark as "used". Add segment note "For NAESB WGQ, this segment is sender's option." LQ01: mark as "must use"; mark code value COR [Confirmation Role] as used [we will request this code value from ASC X12] LQ02: mark as "must use". Add element note "Confirmation Role". Insert code values "OPR - Operator" and "UDP - Upstream/Downstream Party".	IR	06/10/02	
R97058B	Heading N1 segment (position 0500): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirming Party or Confirmation Requester."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirming Party Proprietary Code or Confirmation Requester Proprietary Code."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N104: Replace data element list in the element note with "Confirming Party/Confirming Party Proprietary Code, Confirmation Requester/Confirmation Requester Proprietary Code"	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirmation Service Identifier Code."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirmation Service Identifier Proprietary Code."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N104: Replace data element list in the element note with "Confirmation Service Identifier Code/Confirmation Service Identifier Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N104: Replace data element list in the element note with "Upstream Identifier Code/Upstream Identifier Proprietary Code, Downstream Identifier Code/Downstream Identifier Proprietary Code, Service Requester/Service Requester Proprietary Code"	IR	10/14/02	

Transaction Set tables

Request#	Description	Subcom	Date	Approved by EC
R99031	"N9 Segments (Sub-detail)" table: After the row for Associated Contract, add a new row as follows: Element Name (N902) column = "Confirmation Intraday Identifier", Usage column = "MA", N901 column = "KII" [we will request this code value from ASC X12]	IR	05/13/02	
R97058B	N1 Segments (Sub-detail) table: For the "N103" column, modify the column heading to "N103 (see n1)".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Downstream Identifier Code" row, modify the Element Name (N104) column to "Downstream Identifier Code/Downstream Identifier Proprietary Code"	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Downstream Identifier Code" row, modify the N103 column after the "1" code value to add a sub-row and the code value "SV".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Downstream Identifier Code" row, modify the N103 description column after the "D-U-N-S Number, Dun & Bradstreet" code value description to add a sub-row and the code value description "Transportation Service Provider's proprietary code"	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Upstream Identifier Code" row, modify the Element Name (N104) column to "Upstream Identifier Code/Upstream Identifier Proprietary Code"	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Upstream Identifier Code" row, modify the N103 column after	IR	10/14/02	

	the "1" code value to add a sub-row and the code value "SV".			
R97058B	N1 Segments (Sub-detail) table: For the "Upstream Identifier Code" row, modify the N103 description column after the "D-U-N-S Number, Dun & Bradstreet" code value description to add a sub-row and the code value description "Transportation Service Provider's proprietary code".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Service Requester" row, modify the Element Name (N104) column to "Service Requester/Service Requester Proprietary Code".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Service Requester" row, modify the N103 column after the "1" code value to add a sub-row and the code value "SV".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: For the "Service Requester" row, modify the N103 description column after the "D-U-N-S Number, Dun & Bradstreet" code value description to add a sub-row and the code value description "Transportation Service Provider's proprietary code".	IR	10/14/02	
R97058B	N1 Segments (Sub-detail) table: Skip a blank row below the table and add a "Notes" section as follows: Notes: n1 Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available.	IR	10/14/02	

G873RRFC – Confirmation Response (1.4.4)
Data element ref to X12

Request#	Description	Subcom	Date	Approved by EC
R99031	Sub-detail N9: After the Package ID row, add a new N9 entry with usage MA as follows: "N9 MA Confirmation Intraday Identifier".	IR	05/13/02	
R99037	Heading REF: Add a new row between the N1 Confirming Party and N1 Confirmation Requester as follows: "REF BC Confirmation Role". Skip a blank row between the REF Confirmation Role row and the N1 Confirmation Requester row so that the end result is as follows: N1 M Confirming Party REF BC Confirmation Role N1 M Confirmation Requester	IR	05/13/02	
R99037	Detail LQ segment: Add a new row after the "LQ SO Reduction Reason" row as follows: "LQ BC Confirmation Role". Skip a blank row between the LQ Confirmation Role row and the LCD Location/Location Proprietary Code row so that the end result is as follows: LQ SO Reduction Reason LQ BC Confirmation Role LCD M Location/Location Proprietary Code	IR	06/10/02	
R97058B	Heading N1: For the data element Confirming Party, modify the data element name to "Confirming Party/Confirming Party Proprietary Code"	IR	10/14/02	
R97058B	Heading N1: For the data element Confirmation Requester, modify the data element name to "Confirmation Requester/Confirmation Requester Proprietary Code"	IR	10/14/02	
R97058B	Detail N1: For the data element Confirmation Service Identifier Code, modify the data element name to "Confirmation Service Identifier Code/Confirmation Service Identifier Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Upstream Identifier Code, modify the data element name to "Upstream Identifier Code/Upstream Identifier Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1: For the data element Downstream Identifier Code, modify the data element name to "Downstream Identifier Code/Downstream Identifier Proprietary Code"	IR	10/14/02	

R97058B	Sub-detail N1: For the data element Service Requester, modify the data element name to "Service Requester/Service Requester Proprietary Code"	IR	10/14/02	
Sample X12 Transaction				
Request#	Description	Subcom	Date	Approved by EC
X12 Mapping				
Request#	Description	Subcom	Date	Approved by EC
R99031	Sub-detail N9 segment (position 0900): N902: Add ", Confirmation Intraday Identifier" between the Associated Contract and Confirmation User Data 1 data elements.	IR	05/13/02	
R99037	Heading REF segment (position 0800): mark as "used". Add segment note "For NAESB WGQ, this segment is business conditional." REF01: mark as "must use"; mark code value COR [Confirmation Role] as used [we will request this code value from ASC X12] REF02: mark as "must use". Add element note "Confirmation Role". Insert code values "OPR -Operator" and "UDP - Upstream/Downstream Party".	IR	05/13/02	
R99037	Detail LQ segment (position 0300): LQ01: Delete element note "RED Reduction Reason Code" Insert element note "Refer to "LQ Segments (Detail)" table for usage and values."; LQ02: Add data element name "Confirmation Role" to the end of the data element list.	IR	06/10/02	
R97058B	Heading N1 segment (position 0500): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirming Party or Confirmation Requester."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirming Party Proprietary Code or Confirmation Requester Proprietary Code."	IR	10/14/02	
R97058B	Heading N1 segment (position 0500): N104: Replace data element list in the element note with "Confirming Party/Confirming Party Proprietary Code, Confirmation Requester/Confirmation Requester Proprietary Code"	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: Add element note "Parties should mutually agree to use the Transportation Service Provider's proprietary entity code when the D-U-N-S® Number is not available."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: code value 1: Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirmation Service Identifier Code."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N103: Mark the code value SV [Service Provider Number] as "used". Add code value note "For NAESB WGQ, this code value may only be used when sending the Confirmation Service Identifier Proprietary Code."	IR	10/14/02	
R97058B	Detail N1 segment (position 0600): N104: Replace data element list in the element note with "Confirmation Service Identifier Code/Confirmation Service Identifier Proprietary Code"	IR	10/14/02	
R97058B	Sub-detail N1 segment (position 1100): N104: Replace data element list in the element note with "Upstream Identifier Code/Upstream Identifier Proprietary Code, Downstream Identifier Code/Downstream Identifier Proprietary Code, Service Requester/Service Requester Proprietary Code"	IR	10/14/02	
Transaction Set tables
