

June 17, 2002

Rae,

In response to the "Draft Agenda" the entities below object to the date and time set for the discussion of the ISOs/RTOs/RROs letter posted on the website and handed out at the previous meeting. (You reference this letter as the NYISO memo.)

We believe the correct spot on the Agenda for this letter is ~~before~~ Agenda Item 3, Day 1, June 20th. To discuss information that inherently addresses issues pertaining to segments and the definitions of segments on Day 2, Agenda Item 8 is not the best use of our time.

Please reconsider and allow this time change to the agenda.

Regards,

Lisa Szot
California ISO
