RE: WEQ Information Technology OASIS 1A Issues Task Force Conference Call Agenda - November 25, 2003

DATE: November 24, 2003

Dear NAESB WEQ Information Technology (IT) Subcommittee participants,

At the October WEQ IT meeting, the OASIS 1A Issues Task Force was established and charged with evaluating the outstanding OASIS 1A issues (see letter from the OASIS Standards Collaborative dated July 30, 2003) and determining whether they are required for compliance with a FERC Order, clarifications to the existing S&CP, or enhancements. The task force will be led by Mr. Wood of Southern Company.

The OASIS 1A Issues Task Force met on November 7, November 14 and November 24 to establish the procedures it would follow, review comments submitted on the OASIS 1A Issues document, and review a consensus comments document. **The next task force conference call is scheduled for November 25, 2003 from 10:00 a.m. to 11:00 a.m. Central where the consensus document strawman will be reviewed and approved.** A draft agenda for 11-25 is shown following. Any available work papers are posted and may be downloaded, (http://www.naesb.org/weq/weq_info_technology.asp), from the NAESB web site. Please call the office (713-356-0060) for call-in instructions if you would like to participate and did not receive the notice of the conference calls. This, as with all NAESB meetings, is an open meeting. We look forward to your attendance.

Best Regards,
Todd Oncken
