Dear Todd:

At this time, I believe I will have a conflict with this conference call. I have one item for consideration and discussion for the 2004 Annual Plan related to the WGQ Contracts Subcommittee.

ISDA Gas Annex work item:

Current status is:

1. NAESB received the original draft of the ISDA Gas Annex in February 2003.
2. ISDA should publish its final version of the ISDA Gas Annex later this year.
3. The reported purpose of the ISDA Gas Annex is to replace the NAESB Base Contract and its General Terms and Conditions with ISDA's Gas Annex and ISDA's General Terms and Conditions.
4. At this time the subcommittee members have little or no interest to review the ISDA Gas Annex as a replacement for the NAESB Base Contract.

Two courses of action:

1. Add to WGQ Contracts Subcommittee for 2004 review of the ISDA Gas Annex as a continuation of the 2003 work, or
2. Show IDSA Gas Annex review as a tentative item for the WGQ Contracts Subcommittee with the understanding that work will only be performed upon the submittal of a Request from an interested party.

My recommendation is to adopt the second course of action above and make the IDSA Gas Annex a tentative work items subject to a future request.

Other Work Items

There is no other items for the WGQ Contracts Subcommittee in 2004 as far as I know.

By this note I am asking Suzanne Calcagno to provide her thoughts on the above matters for the 2004 WGQ Annual Plan.

Thanks

Keith Sappenfield
