Rae,

Due to a FERC technical conference, Diane McVicker and I will be unable to participate on tomorrow's conference call to discuss the WGQ's Annual Plan items. However, we are both in support of the inclusion of the Intraday and Gas Day items on the WGQ Annual Plan as we believe it is in the industry's best interest to continually keep pace with the increases in technology and market demands, especially when such efforts improve the integration of the gas and electric industry. Given our support for these action items, Diane and I anticipate being actively involved on these issues. We therefore ask that our position be made known on the conference call. Thank you.

Sincerely,

Diane McVicker (SRP)  
Kelly A. Daly (APS)
