

# **NAESB-FERC E-tariff Meeting**

## **EEI Presentation**

# Introduction

- **EEI** and its members have a direct stake here
- **We** strongly support electronic filing of tariffs, rate schedules, and related agreements (“tariffs” for short) going forward
- **We** have participated actively in FERC’s e-Tariff efforts to date – and find it unworkable
- **We** propose a far simpler, more effective e-Library solution – already in use by FERC

# Prior Efforts by FERC and Industry

- Initial Goal
- Necessary Functions of Database and Types of Documents to be Included
- Prior Attempt to Develop Database
- Why a New Solution is Necessary
- Industry Proposed Solution

# Industry Proposal

- **Build Upon Existing eFiling and eLibrary**
- **Why This Makes Sense**
- **Easy to Implement**
- **Example**
