Subject: Reminder: Budget for NAESB Membership Fee Renewal in 2010

Dear NAESB Member,

It's that time of year again for many companies to begin preparing budgets for the upcoming year. 2010 is shaping up to be a busy year, with several NAESB standards development projects important to the industry and to your company. Demand side management, demand response, energy efficiency and smart grid efforts continue to play a key role in NAESB standards development, and as the eTariff standards are put in place - additional changes may be needed to support wholesale gas and electric quadrants. With retail version 1.1 and wholesale gas version 1.9 publications expected in 2009, version 2.2 of the wholesale electric quadrant standards is expected in first quarter of 2010. The large body of standards for all quadrants requires upkeep to reflect the new and changed services that support the market.

As always, we want to keep you as a member and contributor to these industry led efforts, so please remember to include your NAESB membership fee renewal while preparing your budgets for 2010. Our annual membership fee is \$6,500. Invoices are typically sent via US Mail 60 days prior to your membership renewal date for processing payments within your company. We do accept credit card payments and will be happy to take your payment information by phone at 713-356-0060.

We look forward to your continued participation in our organization in 2010 - it will be a busy and exciting year!

With Best Regards,

NAESB Board Resources Committee
