 SUBJECT: WEQ Request for Informal Comments on Proposed M&V BPS for EE Products

WPPI Energy appreciates the opportunity to provide comments on the Proposed M&V BPS for EE Products. We have just a few comments at this time:

Section	Text	Comment
WEQ.020.1.1.: 2 <sup>nd</sup> paragraph, 2 <sup>nd</sup> sentence	“The standards are not design <del>ed</del> ed to establish or support any regulatory policy.”	See track changes
WEQ.020.3.7.1.1., WEQ.020.3.7.1.2.	These two sections appear to discuss two types of Energy Efficiency Baselines, “standard” and “current load,” and when they may be applied.	Please clarify the conditions under which these two baseline types may be applied relative to the four conditions listed under WEQ.020.3.7.1.
WEQ.020.3.8.5. Sampling Over Zones	“Sampling used by the EERP over larger geographic areas shall be permitted such that:”	Sampling over larger geographic areas than a Zone? If so, what is the definition of a “Zone?” If not, sampling over larger geographic areas than what?
