

Customer Consent to Obtain Household Energy Information

The Maryland Department of Housing and Community Development (DHCD) works with partners to finance housing opportunities and revitalize great places for Maryland citizens to live, work and prosper. As part of this mission, DHCD has a number of programs that are geared towards making Maryland homes and businesses more comfortable, efficient, and affordable through energy savings measures.

WHY WE NEED A RELEASE – For our energy efficiency programs to be successful, DHCD will need to compare energy usage before and after the efficiency improvements. To understand how effective these measures are in reducing your energy bills, we will need access to actual energy usage data for your home, as well as data on energy saving measures installed in your home. This data will allow us to more accurately personalize energy savings estimates for home energy improvements provided by participating contractors, ensure that installed measures are delivering the expected energy savings, and allow us to provide feedback to you on energy reductions. This data will also be used by the U.S. Department of Energy's (DOE) and our own program research staff for program evaluation purposes. We take the security and privacy of your information very seriously. We will never sell, rent, or otherwise release personal data to outside parties.
