Subject: Coordination of Glossary Terms for WEQ NITS on OASIS Recommendation

Patrick,

Attached are the final definitions of terms from the WEQ OASIS Subcommittee for the Network Integration Transmission Service on OASIS recommendation. The subcommittee deleted revisions to "Applicant" which was the one term we had overlaps. The OASIS subcommittee has not added new terms since the last time I sent you the document. They have modified three terms a) changed Eligible Transmission Customer to Eligible Customer, and b) modified definitions for Assignee and Transmission Customer by deleting Transmission in the term of Eligible Transmission Customer. I reviewed the [REQ Glossary Working Document - RXQ.0](#) document posted on the Retail Glossary page and did not find Assignee, Eligible Customer, and Transmission Customer as defined terms by the Retail Quadrants. Based on my review I do not see any conflict in the NITS on OASIS Recommendation's definition of terms and the Retail definition of terms. Do you agree with my assessment?

Thanks,
