Bob and Clint,

The WEQ Standards Review Subcommittee was reviewing recent NERC activity. One item we notice that you need to consider is the recent NERC work on the FERC Order 693 Directives. In the changes to the standards there was a change to EOP-002-3 for Requirement 6. We noticed that JESS has a 2010 WEQ Annual Plan Item that also references EOP-002 Requirement 6.

3.a.vi Review and correct WEQ-004 Coordinate Interchange Business Practice Standard as needed based on activities in NERC Project 2008-12, Coordinate Interchange Standards Revisions and supporting EOP-002-2 R4 and R6.
[note: this is a new item]

When JESS works on its annual plan item you should look at the changes that were approved for R6.

Thanks,
