RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

Requester: KeySpan Request No.: R02002 and 2002 Annual Plan Item 10 - Order 587-N

1. RECOMMENDED ACTION:

Accept as requested
X Accept as modified below
___ Decline

EFFECT OF EC VOTE TO ACCEPT

RECOMMENDED ACTION:

X Change to Existing Practice
____ Status Quo

2. TYPE OF MAINTENANCE

Per Request: Per Recommendation:

Initiation

X Modification

___ Interpretation

___ Withdrawal

___ Principle (x.1.z)

___ Definition (x.2.z)

X Business Practice Standard (x.3.z)

___ Document (x.4.z)

___ Data Element (x.4.z)

___ Code Value (x.4.z)

___ X12 Implementation Guide

___ Business Process Documentation

3. RECOMMENDATION

SUMMARY:

- Modify existing NAESB WGQ Standards 5.3.2, 5.3.7, 5.3.41, 5.3.42.
- Delete existing NAESB WGQ Standard 5.3.6.
- Add proposed NAEBS WGQ Standards 5.3.z1, 5.3.z2, 5.3.z3, 5.3.z4, 5.3.z5, 5.3.z6, 5.3.z7, 5.3.z8, 5.3.z9, 5.3.z10, 5.3.z11.
- Add proposed NAESB WGQ Principle 5.1.z1.
- Add the following six new data elements:
  - Business Day Indicator
  - Recall Notification Period Indicator - Early Evening
  - Recall Notification Period Indicator - Evening
  - Recall Notification Period Indicator - Intraday 1
  - Recall Notification Period Indicator - Intraday 2
  - Recall Notification Period Indicator - Timely
  to the following five Capacity Release data sets:
    - Offer Download - NAESB WGQ Standard 5.4.1
    - Award Download - NAESB WGQ Standard 5.4.3
    - Replacement Capacity - NAESB WGQ Standard 5.4.4
    - Offer Upload - NAESB WGQ Standard 5.4.7
    - Offer Upload Notification - NAESB WGQ Standard 5.4.9
- Add code values “No” and “Yes” to the six new data elements listed above in the five Capacity Release data sets indicated above.
RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

Requester: KeySpan    Request No.: R02002 and
2002 Annual Plan Item 10 - Order 587-N

- Add code value "Capacity Recalled" to the Reduction Reason data element for the Confirmation Response - NAESB WGQ Standard 1.4.4.
- Modify the Sample Paper Transaction for the following five Capacity Release data sets:
  - Offer Download - NAESB WGQ Standard 5.4.1
  - Award Download - NAESB WGQ Standard 5.4.3
  - Replacement Capacity - NAESB WGQ Standard 5.4.4
  - Offer Upload - NAESB WGQ Standard 5.4.7
  - Offer Upload Notification - NAESB WGQ Standard 5.4.9

STANDARDS LANGUAGE:

5.3.2 Proposed Modified NAESB WGQ Standard
For biddable releases (less than 1 year):
- offers should be tendered by 12:00 P.M. on a Business Day;
- open season ends no later than 1:00 P.M. on a Business Day (evaluation period begins at 1:00 P.M. during which contingency is eliminated, determination of best bid is made, and ties are broken);
- evaluation period ends and award posting if no match required at 2:00 P.M.;
- match or award is communicated by 2:00 P.M.;
- match response by 2:30 P.M.;
- where match required, award posting by 3:00 P.M.;
- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

For biddable releases (1 year or more):
- offers should be tendered by 12:00 P.M. four Business Days before award;
- open season ends no later than 1:00 P.M. on the Business Day before timely nominations are due (open season is three Business Days);
- evaluation period begins at 1:00 P.M. during which contingency is eliminated, determination of best bid is made, and ties are broken;
- evaluation period ends and award posting if no match required at 2:00 P.M.;
- match or award is communicated by 2:00 P.M.;
- match response by 2:30 P.M.;
- where match required, award posting by 3:00 P.M.;
- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

For non-biddable releases:
Timely Cycle
- posting of prearranged deals not subject to bid are due by 10:30 A.M. on a Business Day;
- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

Evening Cycle
- posting of prearranged deals not subject to bid are due by 5:00 P.M. on a Business Day;
RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

Requester: KeySpan Request No.: R02002 and 2002 Annual Plan Item 10 - Order 587-N

- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

Intraday 1 Cycle
- posting of prearranged deals not subject to bid are due by 9:00 A.M. on a Business Day;
- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

Intraday 2 Cycle
- posting of prearranged deals not subject to bid are due by 4:00 P.M. on a Business Day;
- contract issued within one hour of award posting (with a new contract number, when applicable); nomination possible beginning at the next available nomination cycle for the effective date of the contract. (Central Clock Time)

5.3.6 Proposed Deleted NAESB WGQ Standard
If the releasing shipper wishes to recall capacity to be effective for a gas day, the notice should be provided to the transportation service provider and the acquiring shipper no later than 8 A.M. Central Clock Time on nomination day.

5.3.7 Proposed Modified NAESB WGQ Standard
There should be no partial day recalls of capacity. Transportation service providers should support the function of rebidding by releasing shippers.

5.3.41 Proposed Modified NAESB WGQ Standard
The display of capacity release data for an Offer should be selected from a summary list of Offers. The summary list should be comprised of the following:

- Offer Number
- Release Term Start Date
- Release Term End Date
- Location Information as applicable, and/or navigation to detail
- Maximum Offer Quantity – Contract
- Biddable Deal Indicator
- Recall notification period(s) as indicated in the Offer
- Business Day recall notification restriction
- other data elements, if applicable

5.3.42 Proposed Modified NAESB WGQ Standard
A mechanism should be provided to allow the Capacity Release offer summary list to be filtered by:

- Offer Number
- Release Term Start Date
- Release Term End Date
- Biddable Deal Indicator
- Recall notification period(s) as indicated in the Offer
- Business Day recall notification restriction

The mechanism should also allow filtering based upon the status of the offers.
5.3.z1 Proposed Standard

All Transportation Service Providers (TSPs) should support the following recall notification periods for all released capacity subject to recall rights:

(i) Timely Recall Notification:
   (a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 8:00 a.m.;
   (b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 9:00 a.m. (Central Clock Time);

(ii) Early Evening Recall Notification:
   (a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 3:00 p.m.;
   (b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 4:00 p.m. (Central Clock Time);

(iii) Evening Recall Notification:
   (a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 5:00 p.m.;
   (b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 6:00 p.m. (Central Clock Time);

(iv) Intraday 1 Recall Notification:
   (a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 7:00 a.m.;
   (b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 8:00 a.m. (Central Clock Time); and

(v) Intraday 2 Recall Notification:
   (a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 2:30 p.m.;
   (b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 3:30 p.m. (Central Clock Time).

5.3.z2 Proposed Standard

For recall notification provided to the Transportation Service Provider (TSP) prior to the recall notification deadline specified in NAESB WGQ Standard No. [5.3.z1] and received between 7:00 a.m. and 5:00 p.m., the TSP should provide notification to all affected Replacement Shippers no later than one hour after receipt of such recall notification.

For recall notification provided to the TSP after 5:00 p.m. and prior to 7:00 a.m., the TSP should provide notification to all affected Replacement Shippers no later than 8:00 a.m. after receipt of such recall notification. (Central Clock Time)

5.3.z3 Proposed Standard

When a Transportation Service Provider (TSP) sends Internet E-mail notification for recalling of capacity to each affected Replacement Shipper, the subject line of the E-mail should include the following information separated by commas in the following order: (1) "Recall", (2) the recall notification period, (3) the Effective Date in YYYYMMDD format, (4) the name or abbreviation of the TSP (excluding commas), and (5) the TSP’s D-U-N-S® Number.
The body of such E-mail notification should contain at least the affected Replacement Shipper’s Contract Number, the quantity of capacity being recalled, and the Offer Number or Award Number, if necessary to uniquely identify the capacity being recalled.

Where supported by the TSP, for recalls that are effective at non-standard times, the appropriate recall notification period should be included in the subject line and the effective time of the recall should be in the body of the E-mail.

Where TSPs offer capacity recall notification mechanisms in addition to Internet E-mail, the notification should include at least the same level of information.

5.3.z4 Proposed Standard
The Replacement Shipper should provide the Transportation Service Provider (TSP) with no more than two Internet E-mail addresses to be used for recall notification. The obligation of the TSP to provide notification is waived until at least one of the addresses has been provided.

5.3.z5 Proposed Standard
The Releasing Shipper should provide capacity recall notification to the Transportation Service Provider (TSP) through the TSP’s Customer Activities Website. The recall notification should specify the recall notification period for the specified effective gas day, as well as any other information needed to uniquely identify the capacity being recalled.

5.3.z6 Proposed Standard
Recalled capacity notices should indicate whether penalties will apply for the gas day for which quantities are reduced due to a capacity recall.

5.3.z7 Proposed Standard
A Transportation Service Provider should support the ability for the Releasing Shipper to specify, as a condition of a capacity release offer, which recall notification period(s), as provided in NAESB WGQ Standard No. [5.3.z1], will be available for use by the parties.

5.3.z8 Proposed Standard
A Transportation Service Provider should support the ability for the Releasing Shipper to specify, as a condition of a release, whether the Releasing Shipper’s recall notification must be provided exclusively on a Business Day.

5.3.z9 Proposed Standard
Affected Replacement Shippers should manage internal distribution of notifications of recall received from a Transportation Service Provider.

5.3.z10 Proposed Standard
When capacity is recalled, it may not be reput for the same gas day.
5.3.z11 Proposed Standard
The deadline for notifying the Transportation Service Provider of a reput is 8:00 a.m. to allow for timely nominations to flow on the next gas day.

5.1.z1 Proposed Principle
The Releasing Shipper should provide capacity recall notification to its affected Replacement Shipper(s) at the same time it provides notification to the Transportation Service Provider. The mode of notification should be mutually agreed between the parties.

### 4. SUPPORTING DOCUMENTATION

**a. Description of Request:**

- [Link to supporting documentation]

**b. Description of Recommendation:**

**Business Practices Subcommittee**

See the Business Process Subcommittee (BPS) meeting minutes, attachments, and transcripts for the supporting documentation, discussion, and voting records for the following dates:
April 3, 2002
April 10-11, 2002
April 24, 2002
April 30, 2002
May 10, 2002
May 16-17, 2002
May 22, 2002
May 30, 2002

BPS passed the following instructions to the Information Requirements Subcommittee:

**Proposed Instruction to IR 1**
Instruct Information Requirements to accommodate, in the capacity release offer process, the selection of all recall notification periods and an indication of Business Day recall notification restrictions.

**Proposed Instruction to IR 2**
Instruct Information Requirements to accommodate the business conditional sending of an Internet E-mail address by Replacement Shippers for the use in capacity release recall notification.

**Proposed Instruction to IR 3**
BPS instructs the Information Requirements Subcommittee to accommodate the sending of a Reduction Reason Code in the confirmation and/or scheduling process(es) indicating when a quantity is reduced as a result of recalled capacity.

**Information Requirements Subcommittee**

See the Information Requirements Subcommittee meeting minutes and attachments for the supporting documentation and discussion for the following dates:

June 11-12, 2002

- **Motion:**
  Adopt the following changes to the indicated Flowing Gas and Capacity Release Data Dictionaries, Code Values Dictionaries and Sample Paper Transactions:
  (Note: for the details of the motion, see the meeting minutes of June 11-12, 2002 or Section 3 abov.)

SAMPLE PAPER TRANSACTION

Continuing with the example, Gas Management Software Company knows that ABC Pipeline’s business practices require Independent Power Company to confirm the deal. Gas Management Software Company sends an Offer Upload Notification to Independent Power Company.

All necessary capacity release information must be sent to Independent Power Company. This will allow them to check the accuracy of the data.

The following paper sample and EDI sample illustrate the above scenario.

**Transportation Service Provider:** ABC Pipeline (808-34-4672)

**Releaser:** Big City LDC  
**Bidder:** Independent Power Co.

- **Code:** 108-82-2132  
- **Code:** 006-93-3672
- **Contact:** Barbara Fox  
- **Contact:**
- **Phone:** (583) 693-4679  
- **Phone:** (  )
- **Fax:** (583) 693-5542
