Abstract / Discussion (E-1, E-3, E-4): Add a conditional data element, Releaser Company Code, to 864 Notes documents associated with UPPD's. This information, combined with the existing UPPD Number, will allow specific identification of Notes documents with the applicable UPPD document. The condition would be applicable to all Notes documents associated with a UPPD document.

Without this information, it could be difficult, and in some cases not possible, to coordinate Notes documents associated with UPPD's to the relevant UPPD document.

Note that this implementation recommendation is a change to the original request where Return Addressee was requested. Requester agreed with the modification to include Releaser Company Code rather than Return Addressee in the Notes documents.
