Request to change the Flowing Gas Implementation Guide definition of "Limit Value" in the Pre-determined Allocation data dictionary from - "Additional information for gas allocated using the ranking method to allow limitation of variances on a transaction." - to - "Additional information for gas allocated to allow limitation of variances on a transaction."

- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):

The change would allow for the use of the Limitation Variance with any allocation methodology offered by the service provider.

Members of the task force in opposition of the change questioned if changing a definition was the correct method to address this issue. In the original discussion of the Flowing Gas BP task force, the limitation variance was discussed only in context of the ranking allocation methodology.
