4. SUPPORTING DOCUMENTATION

a. Description of Request:

[The request was specific to charge type descriptions which were processed as R96121B. Please reference the Executive Committee discussion and procedural instructions below for an accurate description of the "request" surrounding R96121A.]

b. Description of Recommendation:

Executive Committee

EXECUTIVE COMMITTEE DISCUSSION:

There are currently over 90 different charge types, some of which may overlap, and are not easily distinguishable. Information Requirements Subcommittee should review the terms for defining descriptions in a glossary, eliminating any redundancy and overlaps. Service codes should be reviewed at the same time with the same actions. Possibly this should be a joint Information Requirements Subcommittee and Business Practices Subcommittee effort. This item is also in our annual plan.

PROCEDURAL VOTE:

The revised recommendation is for the Information Requirements Subcommittee and Business Practices Subcommittee to review all codes for a higher degree of standardization.

RECOMMENDATION TO GISB EXECUTIVE COMMITTEE

Requester: ANR Pipeline Request No.: R96121 A-1

Business Practices Subcommittee

September 4, 1997 Business Practices Subcommittee Conference Call:

With respect to the Code value clean-up effort, Information Requirements is to undertake the effort and as with the current custom, should in the process of this effort, the Information Requirements Subcommittee identify business practice issues (i.e., controversies) they should refer those to the BPS for resolution.

(Note: No specific sense of the room was taken as the motion was procedural and instructional. There was no opposition stated by any of the 20 attendees on the conference call.)

Information Requirements Subcommittee

This request is split into two parts: **R96121A** is be assigned to the code value clean-up effort. **R96121B** is assigned to the definitions on the request.

Capacity Type Indicator data element codes:

**Primary to Primary**: Specifies primary receipt capacity to primary delivery capacity.

**Primary to Secondary**: Specifies primary receipt capacity to secondary delivery capacity.

**Secondary to Secondary**: Specifies secondary receipt capacity to secondary delivery capacity.

**Secondary to Primary**: Specifies secondary receipt capacity to primary delivery capacity.

**Interruptible**: Specifies interruptible capacity.

**Tertiary to Primary**: Specifies tertiary receipt capacity to primary delivery capacity.

[current proposed definition, see R97039. EC approved 9/12/97]

**Tertiary to Secondary**: Specifies tertiary receipt capacity to secondary delivery capacity.

[current proposed definition see R97039. EC approved 9/12/97]
Motion: Adopt the definitions for the above listed Capacity Type Indicator codes (except those from R97039):

Sense of the Room: September 10, 1997  10  In Favor  0  Opposed
Segment Check (if applicable):
In Favor: _____End-Users _____LDCs _____Pipelines _____Producers _____Services
Opposed: _____End-Users _____LDCs _____Pipelines _____Producers _____Services

Technical Subcommittee
