Abstract / Discussion (E-1, E-3, E-4):

The Market Settlement Task Force recommends the addition of a new mandatory data element "Statement Type Code" to the PDA, the PDA Quick Response, and the Allocation Statement data sets.

Standard 2.3.25 states "The data elements should accommodate multi-tiered allocations. If a transportation service provider chooses to support multi-tier allocations or already accepts multi-tier allocations, the data elements should accommodate it. The addition of this Data Element is needed to support multi-tier allocations.
