REQUEST FOR CLARIFICATION OR INTERPRETATION

Date: 12/19/96

Requester Name: Michael R. Hansen

Company: Columbia Gulf Transmission Company

Phone, Fax, e-mail: phone (713) 267-4221; fax (713) 267-4233

GISB Standard #: 2.4.1. (PDA data set) and 2.4.2. (PDA Quick Response)

Clarification or interpretation request:

How does the PDA Quick Response distinguish specific errors when PDAs have been submitted for multiple locations? The PDA Quick Response does not appear to allow for making distinctions when multiple PDAs have been submitted.

Possible interpretations or clarifications, if known:

Add "Location" and "Beginning Date/Time" to the PDA Quick Response data set so the Quick Response can identify specific problems within the PDA data set. Otherwise, the recipient of the PDA data set will have to reject all locations within the data set even when there may only be an error for a single location.
