

October 15, 2002

Quorum Business Solutions, Inc, a member to the Services Segment of the NAESB Wholesale Gas Quadrant (WGQ), supports the request from Shell Gas Transmission, LLC (SGT) for a twenty four (24) month interval between publication and release of new versions of the NAESB standards for the WGQ. Quorum concurs with the concepts and reasoning put forward by SGT in their request.

Quorum appreciates the consideration of this beneficial proposal by the Parliamentary Committee and looks forward to the discussion of the publication timeline of future NAESB standards.

Sincerely,

Quorum Business Solutions, Inc.

Douglas L. Allen
Sr. Manager – EMT
NAESB Coordinator
